### NEW ORLEANS GOLD COINS A DATE BY DATE ANALYSIS

#### PART TWO: EAGLES – DOUBLE EAGLES

by Douglas Winter

The first part of this study looked at the gold dollars, quarter eagles, three dollar gold pieces and half eagles from the New Orleans Mint. This part looks at the eagles and double eagles from this Mint.

##### 1. EAGLES

**DATES OF ISSUE:** 1841-1860, 1879-1883, 1888, 1892-1895, 1897, 1899 1901, 1903-1904, 1906

**TYPES:** Without Motto (1841-1860) With Motto (1879-1906)

**1841-O:** Only 2,500 struck and desirable, both as a genuinely rare coin and a historically significant first year of issue. Usually very low grade with extremely heavy abrasions and a soft strike. Unknown above AU-55 and very rare in AU with around six or seven known. One of my favorite New Orleans gold coins of any denomination.

**1842-O:** Fairly common in lower grades; becomes scarce in the lower AU grades and rare in AU-55 and above. A very rare coin in Mint State with around a half dozen known. The best I've seen is a coin sold by Stack's in 1996 and later graded MS-63 by PCGS.

**1843-O:** Among the more obtainable New Orleans eagles from the 1840's; rather easy to locate in lower grades but scarce and underrated in AU and very rare in Mint State. Often seen weakly struck and with scruffy surfaces. The few known Mint State coins are in the MS-60 to MS-62 range.

**1844-O:** Similar in overall rarity to the 1843-O and more obtainable than the 1842-O. This date comes well struck for an eagle of this era but most seen are heavily abraded. The typical coin is well worn and an 1844-O eagle in choice AU is quite rare. The finest business strike I have seen is the Byron Reed coin which was graded MS-62 by NGC. A single Proof is known. It traces its pedigree to the Woodin and Parmelee collections and was "rediscovered" at the end of 1994.

**1845-O:** Comparable in rarity to the 1842-O but a bit rarer in the upper Circulated grades. Around four or five are known in Mint State, including a very choice example that was in the Eliasberg sale. A number of interesting varieties are known, including a dramatic doubled date and a repunched date. The Eliasberg: 674 coin (later, owned by Harry Bass) is by far the finest known.

**1846-O:** The most undervalued New Orleans eagle from the 1840's and another of my favorite coins from this Mint. Usually seen in VF-EF grades; rare in AU and extremely rare in Mint State. The grading services are nearly always wrong in designating examples as "Overdates" or "Normal Dates."

**1847-O:** The most obtainable No Motto eagle from this mint. Relatively common in all Circulated grades but rare in Mint State with around 15-20 known; mostly in the MS-60 to MS-61 range. The best I've seen is the MS-64 Warren Miller coin that brought \$26,000 + 15% in the Heritage 10/95 sale.

**1848-O:** A very hard coin to grade as most have a peculiar sunken appearance; use the amount of intact luster as an accurate guide. Scarce in any grade and rare in AU; very rare in Mint State, although one absolutely superb piece (ex. Stack's James Stack sale, 10/94) exists.

**1849-O:** The second rarest New Orleans eagle from the 1840's. Usually seen in VF-EF and flatly struck with poor luster, bagmarked surfaces and distinctive deep green-gold color. AU's are very rare, and I have never seen an unequivocally Mint State example.

**1850-O:** A scarce and underrated date in all grades; usually seen in VF-EF grades and rare in full AU. The only fully Mint State piece I know of is the superb MS-65 example that was originally in the Eliasberg collection. Another date that is notorious for weakness of strike and poor quality surfaces.

**1851-O:** More eagles were struck at the New Orleans Mint in 1851 than in all the other years during this decade put together. Common in all Circulated grades, although nice AU coins are harder to locate than one

might imagine; around 13-16 exist in Mint State with the best of these a Gem from the Eliasberg collection.

**1852-O:** The second rarest issue from this decade. Most known are well worn with flat centers and weak stars. Scarce in choice EF, rare in the lower AU grades and extremely rare in Mint State. The Byron Reed coin is the best I have seen, followed by the example in the 1999 ANA sale.

**1853-O:** One of the more common Without Motto eagles from this mint, but surprisingly rare in higher grades; I have never seen a strictly Mint State example, although I am sure a few exist. A supposed Branch Mint Proof was in Auction '79.

**1854-O Small Date:** A bit less rare than the next overall but probably more rare in high grades. Most are not well struck at the centers; the surfaces are usually bagmarked and slightly reflective. A very rare coin in Mint State with four to six known.

**1854-O Large Date:** An interesting variety that uses a silver dollar date logotype. It is not as rare as generally believed in lower grades but very tough in all grades and very rare in Mint State. Many are seen with a sunken appearance that can be mistaken for wear.

**1855-O:** Like the 1855-O half eagle, this issue is rare and underrated. It is usually seen in VF-EF grades and an AU is quite rare. The only Mint State example I have seen is the coin in the 1999 ANA sale; another six to eight pieces are known in the AU-55 to AU-58 range.

**1856-O:** Another rare and very underrated issue that is most often seen in low grades. Hard to find with a good strike and often very heavily abraded. I have never seen or heard of an Uncirculated coin; around ten are known in the AU-55 to AU-58 range.

**1857-O:** Better known than the 1855-O and 1856-O eagles due to its small mintage figure of 5,500 pieces, yet still underappreciated. Most are in the EF-40 to EF-45 range with slightly below average strikes and dull abraded surfaces. The best I know of is the 1999 ANA/James Stack coin.

**1858-O:** More common than its mintage figure of 20,000 would suggest due to a number of pieces found in the Jackson, TN hoard in the mid-1980's. Not hard to find in the EF-40 to AU-53 range; scarce in the higher AU grades and rare in Mint State. The best I have seen is grade MS-62, but it is rumored that some Gem quality pieces from the aforementioned hoard exist.

**1859-O:** The second rarest New Orleans eagle; only 2,300 struck with 50-60 known. Most of the pieces that have been graded AU-50 by the services are no better than EF-40 to EF-45, and real AU's are very rare. I have never seen an 1859-O eagle that I graded higher than AU-50 to AU-53.

**1860-O:** The final Without Motto eagle from New Orleans and a very overlooked coin. Softly struck, well worn pieces are the rule, and this date is very rare in AU-55 or better. I have seen just one or two that were Mint State.

**1879-O:** The first With Motto eagle from this mint, and popular due to its low mintage of 1,500. A bit less rare than generally believed; often found in EF with very heavily abraded surfaces. Becomes rare in AU-55 and extremely rare with just one or two real Mint State examples known.

**1880-O:** The most common of the popular 1880-1882 date run; fairly obtainable in grades up to AU-53 but scarce in the higher AU grades and very rare in Mint State with around eight to ten known. Often seen slightly prooflike and with heavily marked surfaces.

**1881-O:** The scarcest of the three dates in the 1880-1882 run; mostly seen in the EF-40 to AU-50 range and very scarce in the higher AU grades. Mint State examples are very rare with five to seven known and none of these above MS-60 to MS-61. NGC supposedly graded an MS-63 many years ago but it has never surfaced; perhaps it is a data entry error and represents an 1881-O silver dollar.

**1882-O:** Usually seen in baggy EF-40 to AU-55; scarce in the higher AU grades and rare in Mint State with a dozen or so known. I have never seen a Mint State 1882-O eagle that I thought was better than MS-60. At current price levels, Uncirculated examples of the 1880-O to 1882-O issues are superb values.

**1883-O:** The rarest New Orleans eagle I love this issue for a number of reasons: only 800 were struck (making it the only New Orleans Gold coin with a mintage of less than 1,000), fifth lowest mintage figure for the entire type, etc. Usually seen flatly struck and Prooflike with heavy abrasions and orange-gold color. 30-40 are known with fewer than ten AU's. I have never seen a real Uncirculated piece, and just two or three AU-58's.

PUBLISHER Shane Downing  
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

**1892-O:** Beginning with this issue, the rarity of the With Motto New Orleans eagles takes on an entirely different complexion: somewhat available in low end, baggy Mint State, very scarce in MS-62 and rare above this. I have never seen an 1892-O that I graded better than MS-62.

**1893-O:** Scarcer than the 1892-O in terms of overall rarity but very similar in Uncirculated. Usually seen well struck and lustrous with nice color but with numerous deep, detracting bagmarks. Again, I have never seen one I graded better than MS-62.

**1894-O:** At one time, a very rare coin in Uncirculated, but a hoard of 50-100 Mint State pieces entered the market in the mid-1990's. These were nearly all in the MS-60 to MS-62 range, and examples that grade MS-63 and above are very rare. No Gems are known, unlike most of the post-1895 New Orleans eagles.

**1895-O:** Nearly all examples are flatly struck and have slightly subdued luster. Around 100-150 Mint State pieces entered the market in the mid-1990's. While now available without great difficulty in MS-60 to MS-62, this date is still very rare in MS-63 and all but unknown above this.

**1897-O:** Many are found with soft strikes and very baggy surfaces. Usually seen in the AU-55 to MS-62 range; scarce in MS-63 and rare in any grade above this. Two Superb Gems are known: the Eliasberg coin and the James Stack coin.

**1899-O:** Less rare than once believed but still very tough in MS-62 and rare in MS-63 or better. This issue seems to have seen little circulation, as it is almost never seen below AU-55. The finest known is the incredible MS-68 from the Eliasberg collection which is one of the two single finest New Orleans gold coins of any denomination that I have seen or heard of.

**1901-O:** Another date that went from rare in Mint State to reasonably available after a hoard of 100-200 entered the market in the mid-1990's. Harder to find with nice surfaces than the other dates from this decade. The finest known is an MS-66 Gem from the Eliasberg collection.

**1903-O:** One of the most available New Orleans eagles in Mint State. 200-300 Uncirculated pieces entered the market in the mid-1990's. A good type coin since many are very well struck and have great rose and yellow-gold color. The finest known is the MS-66 from the Eliasberg collection.

**1904-O:** The most common New Orleans eagle in very high grades with as many as a dozen known in MS-64 to MS-66. Many are found with very sharp strikes and great luster. The finest known is an MS-68 coin (ex. Marty Haber) that is the closest thing to a Proof I have seen on a With Motto branch Mint eagle. I believe it is some sort of presentation piece.

**1906-O:** The final eagle struck at the New Orleans Mint and another date that became far more available after a few hundred Mint State examples entered the market in the middle part of the 1990's. A good number of MS-63 to MS-65 pieces are known.

**OVERALL ANALYSIS:** New Orleans eagles are nearly always divided into two groups: Without Motto and With Motto. The Without Motto series is certainly completable in all grades up to and including About Uncirculated-55, although many dates from the 1840's and the 1850's are extremely hard to locate with good strikes, original color and acceptable eye appeal. The With Motto coins can be sub-divided into two distinct groups: the scarce 1879-1883 issues and the more common 1888-1907 dates. The later group is completable in MS-60 to MS-62 at very reasonable levels and represents a great introductory set for the new collector.

### 2. DOUBLE EAGLES

**DATES OF ISSUE:** 1850-1861, 1879

**TYPES:** Type One (1850-1861) Type Three (1879)

**1850-O:** This date is nearly always seen well worn, poorly struck and excessively abraded. Most known are in VF-EF and properly graded AU's are rare, especially at the 55 to 58 level. I've never seen an unquestionable Mint State example, and just one or two AU-58's.

**1851-O:** The most common New Orleans double eagle. Plentiful in lower grades, becomes scarce in the middle AU grades. Mint State examples are very rare with around a dozen known. There is a Gem in the Dallas Bank collection and another that was sold by Stack's in their 9/85 auction.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

**the COIN DEALER Newsletter**

http://www.greysheet.com • cdn@greysheet.com

**1852-O:** A bit more rare than the 1851-O in lower grades but more available in AU and a touch less rare in Mint State. Sometimes found prooflike but most often frosty; pieces exist that are well struck and very appealing. The finest known is the Superb Gem in the Dallas Bank collection.

**1853-O:** Considerably rarer overall than the 1850-1852 issues but not as rare as the 1850-O in AU. Very rare in Mint State with seven to nine known; the finest is a PCGS MS-63 in a midwestern collection. Usually found better struck than the 1850-1852 issues.

**1854-O:** The second rarest New Orleans gold coin, and one of the rarest double eagles of any date or Mint. There are an estimated 25-30 pieces known with most of these in the VF-EF range. An extremely hard coin to find with any degree of eye appeal due to soft strikes, rough handling and considerable wear. The best known is in the Dallas Bank collection, and it would probably grade MS-60 to MS-62 by today's standards.

**1855-O:** Not anywhere as rare as the 1854-O or the 1856-O, but still a very scarce coin in any grade. Around 65-75 are known with most of these very well worn. A very rare coin in AU. I have only seen one or two with claims to a Mint State grade. Nearly every example is heavily abraded, and most have been cleaned at one time.

**1856-O:** The rarest New Orleans gold coin, and in my opinion, the rarest regular issue double eagle. Fewer than two dozen are known (more likely 15-20 pieces) with at least half of these well worn. There is an incredible MS-63 in a Texas collection that is a specimen striking. At the present time, this coin appears on more want lists than any other Liberty Head gold coin that I can think of.

**1857-O:** Both this date and the 1858-O are definite sleepers in the series. The 1857-O is scarce in all grades and very seldom seen above AU-50. In the higher AU grades it is very rare, and the only Uncirculated coin that I am aware of is the superb example in the Bass collection.

**1858-O:** Like the 1857-O, this date is usually seen with a below average strike, very baggy surfaces and slightly prooflike fields. I consider it a bit more rare overall than the 1857-O, especially in AU-55 and above. I have never heard of or seen one in Mint State.

**1859-O:** This is the rarest collectible New Orleans double eagle (many collectors overlook the 1854-O and 1856-O issues because of their high price levels), narrowly eclipsing the 1860-O. There are 50-60 known and most are weakly struck VF-EF coins with semi-prooflike fields and very extensive abrasions. There are four or five known that grade AU-55 to AU-58 and just one piece (from the Fairfield collection) with claims to Mint State.

**1860-O:** A bit less rare than the 1859-O but probably even a bit more rare in higher grades. The finest known is an NGC AU-58 in a midwestern collection that is ex. Superior 2/92: 2965. Nearly always found weakly struck, slightly prooflike, well worn and extensively abraded.

**1861-O:** The most historic double eagle from New Orleans because 5,000 (out of the total mintage figure of 17,741) were struck by the Confederacy. Usually seen in VF-EF grades and probably the single worst produced Liberty Head double eagle of any date. Rare in the lower AU grades, very rare in the higher AU grades and currently unknown in Mint State.

**1879-O:** An extremely popular coin due to its low mintage, proven rarity and its status as the only Type Three double eagle from New Orleans. Not as rare overall as its low mintage would suggest, but extremely scarce above AU-50. There are three to five known in Mint State with the best of these an MS-63 that was first sold in the Spink's December 1995 auction.

**OVERALL ANALYSIS:** The New Orleans double eagles are a short series, but they are very difficult to complete. There are only two relatively available issues in higher grades (the 1851-O and the 1852-O) and even these are very rare in Mint State. To complete this set, a collector must have deep pockets and a lot of patience.

## THREE-CENT PIECES (Nickel)

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together"—bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

## AMERICA'S LEADER IN CLASSIC RARITIES

### BUYING

We are in constant need of great coins, currency, and world class collections.  
**NO ONE WILL PAY MORE.**

### SELLING

Over \$50,000,000.00 of numismatic treasures available.  
Our inventory is in league of its own. See our full page  
ads exclusively in Numismatic News or visit our WEBSITE.  
You'll be amazed!

### TRADING

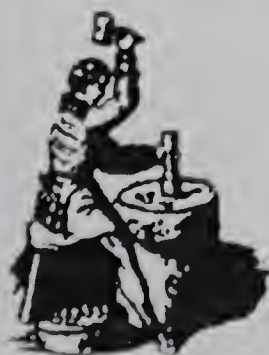

We welcome ALL trades, have interest-free in house  
financing, and an exclusive 10% RE-Purchase program  
to assure you will have a ready and willing buyer when  
the time comes to sell. Call for complete details.

### CONSIGNING

We will take your material on a consignment basis for as little as 5%.  
Your coins will be offered to our select customer base, featured on our  
Website, and listed in our ads. In short, they will receive maximum  
exposure.

*Whether Buying, Selling, Trading or Consigning, you will receive the best guidance my  
40 + years has to offer. You will deal directly with me and not a middleman. I look  
forward to your call. Thanks, Jay*

**FREE INVENTORY LIST AVAILABLE BY PHONE OR FAX**

## Do it right the first time!

Insurance protection for your numismatic inventory requires only one major decision—talk to the insurance professionals at North American Collectibles Association first.

### Proven Track Record

18 years of experience in providing insurance for coin dealers.

### Coverages to Fit Your Needs

Each coverage option available through NACA has been developed to respond to the specific needs of coin dealers.

### Service, Service, Service

It is the name of the game, and Barb Wingo has been on the front line of this one for many years.

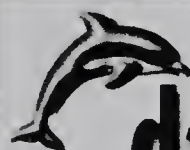

### Prompt Handling of Claims

Claims receive prompt investigation and response.

### NACA Members Have Volume Buying Power

- Save \$1,000s on Federal Express shipments.
- Discounts on Safes & Vaults.

## Liberty Seated Quarters 1838-1891 Analysis Of Select Dates

By Jim O'Donnell

Liberty Seated Quarters are a popular design that spanned more than fifty years during the mid to late 19<sup>th</sup> century. The design was similar to that of the Half Dime, Dime, 20-Cent Piece, Half Dollar and Dollar. These Quarters were struck from 1838-1891 at the Philadelphia, New Orleans, San Francisco and Carson City Mints. Collectors have an easy time locating and viewing the Mint mark which is found on the reverse below the eagle. The composition is 90 percent Silver and 10 percent Copper with all coins having a Reeded Edge. The actual design of the Quarter underwent some modifications during its run. Consequently, there are several designers through these changes. From 1838-1840, Thomas Sully and Christian Gobrecht did the obverse. The reverse used from the same period was designed by John Reich, William Kneass and Christian Gobrecht. Quarters struck from 1840-1891 had an obverse design by Robert B. Hughes, Christian Gobrecht and Thomas Sully. The reverse for these years was by Hughes, Gobrecht and Sully.

Today, collectors and dealers find this series to be extremely interesting and challenging. There are many varieties and rarities that supply a serious collector with many challenges and decisions. Those collectors who are putting together Type sets can have a lot of fun with this series. That is because there are many different varieties to find. Certainly one needs a No Drapery example from 1838-1839. Other Type coins that are desired include a Drapery, No Motto; 1853 Arrows & Rays; 1854-1855 Arrows; Motto; and, 1873-1874 Arrows.

Some collectors are satisfied by collecting by Mint mark. Carson City issues of this denomination are an excellent project for the advanced collector. Although the Carson City Quarters were only struck from 1870 thru 1878, there are many bumps along this short road. To be sure, a serious collector will need to

be financially secure before attempting this challenge. Most people know that the 1873-CC No Arrows is the real show stopper. Even without this major rarity, many of the other "CC" Mints are quite expensive, including those in low Circulated grades. In any event, the Liberty Seated Quarter series is one that will provide you with much happiness and satisfaction.

The following is an analysis based on my expertise and experience of selected dates of the Liberty Seated Quarter series.

**1838-1840-O-No Drapery:** There are three pieces included in this type. They are equal in Circulated grades, but in Mint State, the edge goes to the 1840-O. This is a rare Type coin in grades MS65 and better.

**1840 Drapery:** Here's a coin that I believe to be very undervalued and under appreciated. It is a much scarcer coin than the prices indicate. I believe that at today's prices it represents an excellent value.

**1841:** This date has the lowest mintage for a Philadelphia Mint until 1864. It is more available in higher grades than Good through Fine. Still, there is always demand for this piece.

**1842 Small Date, Proof only:** With just 6 or 7 pieces known, this coin is very rare and hits the auction block an average of every 4-5 years. It is certainly one of the prizes of this 25 Cent collection.

**1842 Large Date:** Here is another scarce issue of the Philadelphia Mint. It is a difficult coin to locate in Choice Extremely Fine or About Uncirculated.

**1842-O Small Date:** I believe this date to be one of the **most undervalued** coins in the entire collection of Liberty Seated Quarters. They are far more available in About Good to Very Good than in Fine to Brilliant Uncirculated. If you can locate an XF or better piece of this very rare variety, you better grab it. In my 40 years, I've seen less than 10 pieces XF or better!

**1847-O:** Here's a coin that's much more available in grades up to Extremely Fine, but About Uncirculated and Mint State examples are in "another world." It is very hard to obtain in higher grades.

**1848:** This is another low mintage Philadelphia Mint Quarter, but more available than the 1841 and 1842 Large Date.

**1849-O:** The 1849-O is the second rarest New Orleans Mint behind the 1842-O Small Date. It is equally rare in Good to

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.  
**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

Very Good, but in Fine or better the 1842-O Small Date is far rarer.

**1852-O:** This is the last year of the New Orleans Mint before the reduction of the weight took place in 1853. Hence, many are believed to have been thrown back into the melting pot since the Silver value exceeded the face value of 25 Cents. Many coins that I have seen have porous surfaces, making a Choice, problem-free example difficult to come by. It is an excellent value at current levels, and it is a very yet-to-be-appreciated date.

**1853 No Arrows:** Where have all of these gone! Ten years ago, finding a piece or two was no problem, but now they are almost **unobtainable**. I believe these to be a much hoarded issue due to many pieces now residing in collections. If you pass up a chance to buy this date, you will regret it.

**1854-O Huge "O":** This is a very interesting variety, as once you see it, you'll never forget it. It is rare in all grades, especially AU or better.

**1855-O:** This is the rarest date of the Arrows variety, especially so in Mint State. It is another underrated date.

**1855-S:** This is the first year of the San Francisco Mint Liberty Seated Quarters. It is scarce, but not nearly as scarce as the New Orleans Mint. Still, it is a popular coin.

**1856-S:** This date is another scarce issue, but in XF or better, it represents a much better value. There have only been two examples graded in Mint State by the Professional Coin Grading Service and three by the Numismatic Guaranty Corporation of America.

**1858-S:** This is a scarce coin to obtain in problem-free condition up to XF. In AU and Uncirculated it is especially rare. There is only one or two Mint State pieces.

**1859-S:** This date is one of the few coins in this series that is unknown in Mint State. Trying to find a Choice AU is a real challenge, as the best I have seen is an AU55. It is therefore an exceptional value considering its rarity.

**1860-S:** Here we come to another unknown in Mint State. It is obtainable up to VF, but to find a Choice XF or AU, well that's another story. Again, it represents another good value considering the price.

**1861-S:** The third coin in a row from the San Francisco Mint that's unknown in Mint State. It too, represents another exceptional value in AU.

**1864-S:** Until fifteen years ago, this also was believed to be unknown in Uncirculated. But a few pieces have surfaced since then, the finest being an MS67 from the Louis E. Eliasberg, Sr., collection. Still, it is rare in Circulated grades.

**1866:** One of the rarest Philadelphia Mints of the entire Liberty Seated Quarter series. Finding a nice Circulated coin is just as difficult as locating a Mint State example.

**1866-S:** Here's a coin that doesn't show up too often. Rarest grades are Good, Very Good, Fine and Brilliant Uncirculated.

It is one of the rarest of the San Francisco Mints.

**1869:** This is another rare Philadelphia Mint (1842 Small Date, 1842 Large Date, 1853 No Arrows, 1866, and 1886 are the rest). It's tough to find a pleasing Circulated example, as very few exist.

**1870-CC:** This date is the rarest Carson City Liberty Seated Quarter. That is because many come with problems, but a nice original coin is hard to find. The finest known are an MS64 and an AU53.

**1871-CC:** This is another very rare coin to find in high grades. Few pieces exist between VF-AU. I personally don't think the price spread between the 1870-CC - 1871-CC in these grades should not be as great as it is. Very rare.

**1872-CC:** The most available date of the 1870-1873-CC. However, in AU and MS, you must respect the rarity of this date just as much. There is only one AU and two Mint State examples that exist.

**1872-S:** Without question the rarest available San Francisco Mint Liberty Seated Quarter. It is very rarely encountered as they are "sold before they are bought." You must be prepared to spend more than current levels if you want to own one!

**1873-CC No Arrows:** One of the **rarest** American coins, as only 5 pieces exist. Just think, that's fewer than the 1804 Draped Bust Dollar, 1894-S Barber Dime, 1838-O Capped Bust, Reeded Edge Half Dollar, 1817/14 Capped Bust Half Dollar, 1927-D \$20 Saint-Gaudens, 1802 Draped Bust Half Dime, and the same number of 1913 Liberty Head Nickels. This coin has not reached its popularity potential as it's never been as publicized as the rest of American rarities. This being the case, it's **the most** underrated and undervalued of the American rarities.

**1873-CC Arrows:** A rare date that often comes with problems. In my opinion, this is just as rare as the 1870-CC in VF or better, yet it's less expensive. A much underrated coin.

**1875-CC:** The scarcest of the 1875-1878-CC's. There are only 2 or 3 pieces that exist in MS65.

**1878-S:** This coin used to be on par with the 1878-S Liberty Seated Half Dollar. We all know that the Half Dollar is "world's rarer," but I will say for the few pieces that come into the market, they go just as fast. It is very underrated!

**1879-1889:** The rarest ones of the Philadelphia Mint bunch in order are 1886, 1887, 1884, 1888, and the rest are fairly equal in availability.

**1891-O:** Scarce but available in G-VF. However in XF-BU they are far scarcer.

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

# “King of Quarters”

Spectrum Numismatics International, Inc., *needs* to buy your 1999 Commemorative State Quarters!

## HOW TO CASH IN!!!

We are currently paying the following prices for BU coins by the \$1,000 bag:

|              |         |
|--------------|---------|
| Pennsylvania | \$3,500 |
| Delaware     | \$3,250 |
| New Jersey   | \$1,500 |
| Georgia      | \$1,075 |
| Connecticut  | \$1,075 |

We are looking for **substantial** quantities of these quarters and can take delivery on the West Coast or East Coast. We are purchasing minimum quantities of one bag or more. Prices are subject to change, so call for up-to-the-minute quotes!

### GET THE CASH NOW!

All you have to do to get the cash is call Spectrum Numismatics any weekday between 8:00 a.m. and 5:00 p.m. Call collect. Tell them you have 1999 State Commemorative Quarters to sell. Simply say whether you want a wire or overnight check! Call now to get your piece of the action and your share of the cash!

## OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

### R.M. SMYTHE

[www.Numismatists.com/rmsmythe](http://www.Numismatists.com/rmsmythe)

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

### THE TIME MACHINE

[www.Numismatists.com/timemachine](http://www.Numismatists.com/timemachine)

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgud Bassili

### DAVID C. ALBANESE

[www.Numismatists.com/albanese](http://www.Numismatists.com/albanese)

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

### JAKE'S MARKET PLACE, INC.

[www.Numismatists.com/jakesmarketplace](http://www.Numismatists.com/jakesmarketplace)

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

## Protect Your Investment in Numismatics

# COUNTERFEIT COIN BULLETIN

An invaluable guide that warns of deceptive counterfeit and altered coins in the numismatic marketplace.

- Learn about dangerous fakes.
- Avoid costly mistakes.
- Ensure the integrity of your personal collection, museum cabinet or dealer inventory.

Loose-leaf, self-indexing bulletins (5 7/8" x 8 1/4") issued 3 times per year.

Each installment includes a minimum of 8 reports, plus an informative feature.

**\$60 per year**  
for ANA members;  
\$100 for non-members.  
Non-U.S. members &  
subscribers please add \$15.

a publication of the  
American Numismatic Association (ANA)  
and the International Association of  
Professional Numismatists (IAPN)

User-friendly, numismatic information  
delivered right to your door.

Subscription includes a handy, three-ring binder  
in which to organize your bulletins.

### **The Art & Science Of Negotiating**

By Scott A. Travers

*Let's Make a Deal* was a popular TV game show for many years. Host Monty Hall gave crazily costumed contestants a chance to exchange their boxes for what was behind a curtain, or curtains. Some ended up with prizes worth thousands of dollars, others with gag gifts worth a good laugh, but not much more.

Coin buyers and sellers are constantly making deals. Some end up doing very well for themselves, while others learn later that the joke was on them. Unlike the contestants on *Let's Make a Deal*, however, those who negotiate deals involving coins don't have to operate strictly by guesswork. They can arm themselves with facts, figures, insights and common sense and emerge from just about any deal with at least fair value — and perhaps a good deal more.

Negotiating is both an art and a science. It's an *art* because it requires the use of your sixth sense — your intuitive feel for people — and this cannot be quantified. It's a *science* because there are rules that *can* be quantified and defined.

Deal-making is second nature for professional numismatists. "Deal," after all, represents two-thirds of the word "dealer." You don't have to be a dealer, though, to grasp and even master the art (and science) of deal-making.

At the outset, it's important to understand some conditions that are peculiar, if not unique, to the rare-coin marketplace.

First, the circle of dealers with whom you will do business is relatively small and frequently intertwined, and many dealers have long careers and also long memories. This places a greater-than-usual premium on maintaining good relationships all around. It would be foolish to risk alienating a dealer permanently, and unnecessarily, for some trivial gain obtained through subterfuge. The dealer you bluff today for a \$100 discount on a \$1,600 coin may convey this information to someone you will desperately need, a year or two from now, as an ally in a six-figure transaction. Similarly, the vest-pocket dealer you snub at a show may hold that against you — and still be around to do so 10 years later. The moral is: Tread carefully.

Second, coin transactions can be subtle, even tricky, and often may require not only good information and a high degree of intelligence, but also lots of moxie — what some describe as "street smarts."

My firm doesn't maintain an inventory; my stock in trade is connections, not coins, along with my ability to negotiate deals. Over the past quarter-century, I've been engaged as a deal-maker by some of the most renowned captains of industry — from bankers to computer experts to government agencies and law firms. It truly amazes me that some of these people — people who routinely handle deka-million-dollar transactions — are babes in the woods when it comes to our street-smart industry.

The chief executive of one of the nation's largest stock-brokerage firms hired me on an hourly-fee basis to walk him through the process of obtaining a \$50,000 refund from a Long Island, New York telemarketer — on coins whose return privilege had not yet even expired. He had me prepare a script and sit with him while he spoke on the phone to a company representative, asking for his money back. He got his refund — as well as an education about buying rare coins.

To maximize *your* return when buying, selling or trading rare coins, you need to develop self-confidence and become an astute deal-maker.

I've prepared a list of tips gleaned from my nearly 25 years of hands-on experience dealing in coins worth millions of dollars. Master these and you will be in position to make the best possible deal every single time.

***Know the value of every coin you hope to buy or sell, or the value of the services for which you are negotiating.*** Buying or selling a coin without knowing its current market value is like navigating a plane without a compass. I know of one dealer who wrote a book in which he advised readers to start out by offering half of what a dealer was asking for any given coin. Suppose the dealer was asking \$5,000 but the coin was really worth only \$1,000: It would be foolish to open negotiations by offering \$2,500. Similarly, if you are negotiating an auction contract, you should prepare some careful projections of the auction company's costs. When I negotiate an auction contract, I'm intimately familiar with what it is costing the auction firm to conduct the sale — preparation of the catalog, labor, insurance, the staging of the sale at a hotel or convention site, and other expenses. Let the auction company make a profit; give it an incentive to obtain high prices for your coins. But don't overpay unnecessarily.

***Let your adversary make a living.*** Being a coin dealer is often a tough job. It's demanding and expensive to maintain and transport an inventory of valuable coins from city to city, show to show, sale to sale. Respect the time and effort a dealer has spent preparing for a negotiating session with you, and strive for an outcome that's fair to both of you. Remember what I said earlier about the low level of turnover in this field. It isn't in your best interest to squeeze the other guy for a few extra tenths of a percent on your profit margin — not if you're planning to do business again with that dealer or others with whom he converses.

***Master the use of your emotions.*** With coins as with cards, a poker face will help you come out ahead; it keeps other people guessing about your intentions. No matter how badly you want to buy or sell a particular coin, try to appear composed and unemotional. Keep in mind, however, that every now and then, judicious use of the right emotional reaction at an appropriate time can clinch a deal for you.

***Never bluff, and never lie.*** Bluffing and lying will always get you into trouble, damaging or destroying your credibility for future dealings. They might even ruin your chances of making the deal that's at hand. Mean what you say and say what you mean. Let me assure you, if I make an offer to buy a coin and say that a certain number is my "last and final offer," I won't

PUBLISHER Shane Downing  
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.  
**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

move up from that number by even one red cent. I would rather walk away from the deal — and I have! — than go back on my word.

**Let the other party make the first offer.** Deal-making is one situation where, quite often, it doesn't pay to go first. There's always a chance that the other person will offer to sell you a coin for substantially less than what you expect, or offer to buy a coin from you for substantially more than you would have asked. If you do have to go first, start very low in making an offer to buy. You can always come up, but you rarely can go down.

**Simplify the issues.** "Keep it simple, stupid" is rather good advice when it comes to making deals involving rare coins. Variables tend to slow down negotiations. Boil down your discussions to a single issue or number, or at most a very few. Otherwise, you may never reach an agreement. In one recent dispute on which I served as an adviser, the other side came in with a complicated set of proposals under which some coins would be traded, others would be sold, and still others would be bought back. In all, there were 33 variables. I advised the lawyer representing the side that retained me to ask the adversary to buy back virtually all of the coins at one specific number.

**Never make an offer you're uncertain about, and never withdraw an offer once you make it.** In buying or selling rare coins, your word is your bond. You must be careful never to vacillate or dither after you make an offer. You'll infuriate the person with whom you're making the deal and possibly kill any chance of future deals.

**Go to the top.** Pick the person with whom you want to deal, and be certain it's someone who has the needed authority — someone who can say "Yes" without getting somebody else's permission. In many cases, this eliminates the middleman or the middle-woman. This, in turn, often eliminates unnecessary fees. It also averts the good-cop, bad-cop tactics which many coin companies like to use when working out a deal.

**Find out who really owns the coin.** Many coin dealers do business routinely among themselves and handle coins on "memo" from other dealers. For this reason, it's important to negotiate with a coin's true owner. To gain this information, you need to be very active and astute at coin shows — be "in the loop," so to speak. But it's worth it. Why pay Dealer X's bottom-line price of \$12,000 when Dealer Y really owns the coin and will sell it to you for only \$8,000?

**When making an offer, count out the money or write out a check on the spot.**

Being offered cash or a check on the barrel head can be very persuasive to someone selling a coin. Say a dealer is asking \$2,000 for a coin, and you've offered \$1,600. Chances are, he might suggest splitting the difference. But if you pull out your checkbook and write a check for \$1,600, he may simply say, "OK, I'll take it," saving you \$200.

**Always assume the position of power.** Simply stated, this means giving yourself every psychological edge. When sitting down with someone to negotiate a deal, always try to get the most dominating seat. In order to look businesslike, wear a suit and tie. Above all, never let yourself be vulnerable; always strive to be in command. At coin shows, in an effort to level the playing field, I often go behind the other dealer's table and discuss any pending transactions back there, where we are on an equal footing. Some shows don't allow this, so if you intend to engage in this practice, check beforehand to make sure it isn't a violation — especially if you don't have a table of your own at a given show. But many conventions permit this, especially if you have a table there. Ideally, try to appear in charge when you're working on a deal — but if that isn't possible, at least try to level the playing field.

**Be flexible and be ready to change the conditions of the deal on the spot.** Sometimes a deal may seem hopelessly deadlocked. Rather than lose it entirely, be prepared to improvise and modify the structure in order to save it. Suppose you're unwilling to pay more than \$400 for a coin, but the dealer insists on getting \$500. Look in his inventory for something else on which you can make up the difference — possibly a \$600 generic gold coin you can sell elsewhere for \$700. By adding that to the deal, you can still come out just the way you wanted. Similarly, if you're negotiating an auction contract and the auction company won't go any lower on its commission, you might ask the firm instead to guarantee you a photograph of that coin in the catalog. Or, if a large transaction is involved, such as the consignment of an entire collection, you might seek assurance that the auction company will do something extra to help promote it — something which might be very helpful to you in getting higher prices realized, but which would cost the company very little more, such as generating a special press release about the collection or perhaps displaying the collection at a show before the auction takes place.

**Make the other person feel that it's in his or her best interest to make the deal.** Convince the other party that you, and only you, are the right person for this particular deal — that it's an advantage selling the coins to you, rather than any other prospective buyer.

**Don't take things personally.** This rule is last, but certainly not least. If a dealer rejects your offer or counter-offer, don't go away mad. View negotiating as a game, even though the money involved is real. Keep a positive, enthusiastic outlook and leave the door open. He or she may even reconsider and make the deal with you after all.

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

## The Future Of U.S. Rare Coins

By Les Fox

In case you haven't noticed, Rare U.S. coins have been quietly changing hands from (1) collectors to hoarders, to (2) dealers and investors to (3) rich people. If this transfer seems obvious, perhaps it shouldn't — any more than it was "obvious" to buy Microsoft stock in 1982 or 1992, or to buy AOL, Amazon or eBay two years ago. The fact is, a significant percentage of America's truly rare, and highest grade, numismatic prizes may be destined to wind up in the hands of people like Bill Gates, the man who casually shelled out \$20,000,000 for a Leonardo da Vinci book. If so, this may be your last opportunity to cash in as a middleman in the numismatic chain of events.

Looking back to the 19<sup>th</sup> century, most rare coins were originally acquired by rich people, some of whom turned out to be great collectors. Important early U.S. coins (1794-1838), especially in the larger denominations, were first owned by officials of the U.S. Mint, ambassadors, industrialists, royalty and others of substantial means. Such pedigrees are documented in the famous auction catalogs. This trend continued until the middle of the 20<sup>th</sup> century when Whitman introduced its blue coin albums, and everyone suddenly started examining pennies, hoping to find a 1909-S VDB. Yet today, half a century later, the average person still has no idea that the United States ever produced a Half Cent, a \$3 Gold Piece or a High Relief Double Eagle. To most people, 1964 Kennedy Half Dollars are rare coins!

It is interesting to note that the early collectors of U.S. coins *had* to be rich. In order to put away a \$5 Gold Piece (Half Eagle) in 1820, even at face value, you were setting aside an amount of money that an average working person couldn't afford. Hard to believe what's happened to the value of money in 180 years, isn't it? Remember, in 1820, collecting \$5 gold pieces was mostly done by well-to-do people. So, ironically, if my theory is correct, rare coins are merely returning to their rightful owners. The rich people who once displayed rarities on velvet lined shelves of mahogany coin cabinets are the same people now buying them back (in NGC and PCGS holders) for thousands of times the price. Like they say, "Full Circle."

### Your Golden Opportunity

In any event, what does it all mean to you, the modern coin collector who may or may not be a multi-millionaire? What it means is that we may now be in the final transition stage of the re-distribution of "genuine" rare coins. Sorry, folks, but an MS69 1881-S Silver Dollar is not really a rare coin. It may be "rare" in that grade, but there are literally tens of thousands of Gem Brilliant Uncirculated '81-S Dollars. On the other hand, an MS65

1854 \$3 Gold Piece is truly rare, an MS66 or MS67 extremely rare. In fact, most \$3 Gold Pieces (1854-1889) had original mintages below 10,000. By the same token, all New Orleans \$10 Eagles are incredibly rare. In true Gem (like the 1899-O and 1901-O ex-Eliasberg Eagles) they are virtually unique, meaning only one known in this condition. Yes, there are rare Morgan Dollars, too, like a Gem 1893-S.

If you are a coin collector looking for a good investment, my advice is to seriously consider the rarest of the rare: U.S. Gold coins. Over the next 5 to 10 years, I foresee these prices for important (and certified) specimens, both common and rare dates and types in outstanding condition, increasing in value substantially. (This is also true for carefully selected superb quality U.S. Silver Coins, especially those dated 1794-1873.)

### Amazing Gold Rarities: An Idea Ahead Of Its Time

From 1986 to 1988, I put my money where my mouth was. About 75 collector/investors and I systematically purchased some 200 U.S. Gold coins in "amazing" condition. Believing that the change over (from investors to rich people) would occur in 1988, we built a collection of Gem, rare and pedigreed coins, and attempted to market them to the super-rich. Although this collection is not currently acknowledged as one of the great collections, in truth it was. In just three short years we re-assembled key pieces from famous early collections, all in Gem and near Gem grade. This collection contained the Garrett 1829 Large Date Half Eagle, a dozen Eliasberg coins, numerous pre-1838 rarities, several finest known \$3 Gold Pieces, the Kern/Carter Stella, a Gem Proof High Relief, an original 1896 "frosted" Gem Proof Gold Set, a Gem Proof 1804 \$10 Eagle, plus much

PUBLISHER Shane Downing  
 CIRCULATION & BETTY MORRIS  
 ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. **Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

more. The collection was auctioned at the Plaza Hotel on October 5, 1988, known only as "Rare and Important United States Gold Coins." It brought \$3,000,000. Today, with many of the best coins in the sale now certified MS66, MS67, and MS68, it is easily worth \$10,000,000+.

### The 1941 Dunham Collection Auction

Unless you are a serious student of numismatic history, you may never have heard of the famous W.F. Dunham sale. This auction was conducted by famed dealer/auctioneer B. Max Mehl of Ft. Worth, Texas, on June 3, 1941. All Bids in the sale were submitted by mail! Despite the absence of public Bidding, Mehl considered the Dunham collection to be the most "thrilling" coin collection he had ever handled and the pinnacle of his illustrious career. It was the first collection to contain both an original 1804 Silver Dollar (which realized \$4,250) and the only obtainable 1822 \$5 Half Eagle (which realized the then record price of \$11,575). A pair of 1822 Half Eagles, the only other two known to exist, are permanently impounded in the Smithsonian Institution National Numismatic Collection. If you can purchase a copy of the Dunham catalog, you will be floored! The entire collection brought only \$83,364.08. Now read what it included.

Besides the 1804 Dollar and the 1822 Half Eagle (later sold in the Louis Eliasberg collection in 1982 for \$687,500), the Dunham collection contained the following: an 1875 Gold Proof Set (broken up for sale as 5 lots!), three \$4 Stellas, a complete set of \$3 Gold (lacking only the 1870-S), a Proof Kellogg \$50 Gold Piece (as well as other \$50 Gold Pieces), dozens of Proof \$1, \$2.50, \$5, \$10 and \$20 Gold Pieces, approximately 40 Half Eagles dated 1795 to 1834, plus 4,000 (you read it right) additional coins! All for \$83,364.08, total price realized. On second thought, don't buy the 1941 Dunham catalog unless you have a strong stomach. Without doing the math, this collection was worth \$25,000,000+ in 1999!

By the way, Mr. Dunham was born in Barnard, Vermont in 1857. He started out as a school teacher and ended up as a very successful grocer and pharmacist. In 1906, Dunham outbid every rich coin collector in the world when he purchased the 1822 Half Eagle for the unheard of price of \$2,165 at the auction of Harlan P. Smith collection in Philadelphia. Dunham was a Chairman of the Board of the American Numismatic Association and a member of the Chicago Stock exchange.

### Where Are The Famous Coin Collectors Today?

Art collecting has always outshined coin collecting. Years ago, major art collectors also collected coins, but their numismatic treasures never achieved the same public recognition as other important possessions. The sale of a Picasso still rates far bigger headlines than the sale of an 1804 Silver Dollar. Thus, based on pride and prestige, most of today's wealthy collectors prefer art to numismatics. Correctly, they point out that each work of art is an original, whereas rare coins were stamped out on mass production machines. While this is true, it is also true that coin making is an art, often designed by world famous artists like Augustus Saint-Gaudens, whose bronzes sell regularly at Sotheby's. Thousands or millions of coins may have been struck originally, yet in many cases, only a handful, or sometimes as few as one, has survived. It takes true sophistication to appreciate the appeal and cultural significance of even the rarest coins.

As I suggested earlier, fantastic rare coins may ultimately wind up in the hands of billionaires. This may happen in the natural course of events. More likely, something will take place to change things. If Bill Gates (who could probably afford to buy every rare U.S. coin in existence at current prices) were suddenly to purchase an 1804 Silver Dollar, which he may have done already, or if Donald Trump were to display a museum quality coin collection at one of his Atlantic City casinos, that could start the ball rolling. Perhaps Billy Crystal will decide to add a million dollar coin to his portfolio, which includes a \$250,000 Mickey Mantle baseball glove recently purchased by Mr. Crystal at Sotheby's for 10 times its pre-sale estimate. Several years ago, the stock brokerage firm of Kidder Peabody (acquired by Paine Webber) delved briefly into rare coins via a mutual fund. This is the kind of event that, if widely publicized, could put top notch numismatic rarities on the map.

What do you think the future holds for rare coins? If you are an investor, I'll bet you'd like to see Bill Gates start collecting Seated Liberty Dollars and \$3 Gold Pieces. If you are a true collector, maybe you prefer the status quo. The future of rare coins will be interesting, to say the least.

# Our June 4-6 Auction Consignment Deadline is Fast Approaching!

## CONSIGN TODAY!

Don't delay. Consign now and your material can still be included in our June 4-6, 2000 Pre-Long Beach Sale featuring United States, World, and Ancient Coinage. Our annual event is widely attended by numismatists and collectors from all over the country.

Over the years, Superior has been helping collectors realize top market prices for their coins. Our recent ANA 2000 National Money Show™ in Ft. Lauderdale was the highest grossing prices realized for a mid-Winter ANA auction in the last 10 years.

Superior has auctioned some of the most distinguished Numismatic Collections to reach the marketplace, including the collections of:

- Amazonian Six-Piece Gold Pattern
- Dr. Jerry Buss
- Dr. Juan XII Suros
- Father Flanagan's Boys Home
- King of Siam
- Mr. Buddy Ebsen
- Mr. Charles Kramer
- Mr. Ed M. Lee
- Mr. Jascha Heitetz
- Mr. Robinson Brown, Jr.

Just as our consignors realized top prices for their coins in our auctions, you too can receive more for your coins by consigning to our next rare coin auction. As a consignor, you will enjoy:

- Unparalleled Customer Service
- A Staff of Prominent and Experienced Numismatists
- Competitive Commissions
- Cash Advances
- Extensive Advertising to Showcase your Coins
- Illustrated On-line Catalogues

## AMERICA'S LEADER IN CLASSIC RARITIES

### The Unique 1794 Specimen Proof Half Dime PCGS SP-67

Words cannot begin to tell the story of this coin's rarity and importance. Without question, **the first Proof United States Coin** and in the ultimate state of preservation. It also carries the distinction of being the Finest example of the Classic Flowing Hair type design. For the ultimate collection.

Price on Request

### The Unique 1870-S Half Dime PCGS MS-63

One of a handful of absolutely unique United States coins. This singular example represents the ultimate date in the entire Half Dime series. Without this coin no set can ever be truly complete. Its importance and historical significance cannot be overstated. **The Rarest Half Dime on Earth.**

Price on Request

### The Unique 1873-CC Dime NGC MS-65

This is the famous Louis Eliasberg example that caused such a stir when it came up for sale. After years of assembling the only complete set of United States coins, his task became a reality when he finally secured this, the very last coin in this unprecedented collection. **The Rarest Dime on Earth.**

Price on Request

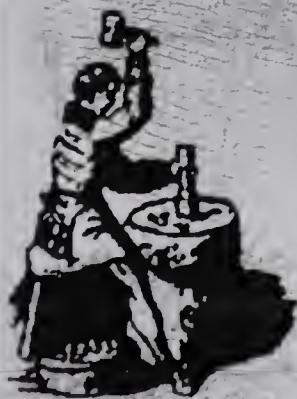

### The Finest Known "Stella" PCGS PR-67

1879 Flowing Hair. Without question, **The Finest Stella** of any kind I have ever seen! Perfect deep cameo contrast combined with the ultimate strike combine to give this "Classic" unimaginable eye appeal. Certain to be centerpiece of the ultimate proof gold collection.

Price on Request

***Whether Buying, Selling, Trading or Consigning, you will receive the best guidance my 40 + years has to offer. You will deal directly with me and not a middleman. I look forward to your call. Thanks, Jay***

## OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

### R.M. SMYTHE

[www.Numismatists.com/rmsmythe](http://www.Numismatists.com/rmsmythe)

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

### THE TIME MACHINE

[www.Numismatists.com/timemachine](http://www.Numismatists.com/timemachine)

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgud Bassili

### DAVID C. ALBANESE

[www.Numismatists.com/albanese](http://www.Numismatists.com/albanese)

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

### JAKE'S MARKET PLACE, INC.

[www.Numismatists.com/jakesmarketplace](http://www.Numismatists.com/jakesmarketplace)

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

in Numismatics

# COUNTERFEIT COIN BULLETIN

An invaluable guide that  
warns of deceptive counter-  
feit and altered coins in the  
numismatic marketplace.

- Learn about dangerous fakes.
- Avoid costly mistakes.
- Ensure the integrity of your personal collection, museum cabinet or dealer inventory.

Loose-leaf, self-indexing  
bulletins (5 7/8" x 8 1/4")  
issued 3 times per year.

Each installment  
includes a minimum  
of 8 reports, plus an  
informative feature.

**\$60 per year**

*for ANA members;  
\$100 for non-members.*

*Non-U.S. members &  
subscribers please add \$15.*

a publication of the  
American Numismatic Association (ANA)  
and the International Association of  
Professional Numismatists (IAPN)

User-friendly, numismatic information  
delivered right to your door.

Subscription includes a handy, three-ring binder  
in which to organize your bulletins.

To order, contact:

## Barber Coinage Well Positioned for a Takeoff

By John and Dave Feigenbaum

The Dimes, Quarters and Half Dollars minted from 1892 to 1916 might well constitute some of the best bargains on the coin market today. For some time now, demand has slowly increased as supply has gone the other way. If you are an advanced collector/investor of U.S. coinage, you would do well to examine these issues to add to your collection or portfolio.

### Highly Collectible & Undervalued Series

For starters, let us assert that assembling the three Barber series makes for a challenging and enjoyable endeavor. Unlike many series, which have "impossible" dates scattered throughout, you will find that completing a Barber set is attainable but requires patience. Prices on the common date coins in the Barber series have suffered from the market softness seen in many type issues. Yet, surprisingly, many of these so-called common dates are not common at all. Each of the three series has two or three very common dates (usually the first and last year issues), and the other Philadelphia Mints in-between have been unduly lumped into the same category. This offers a great advantage to the collecting investor. Grab these up before the Bids catch up to reality — if you can find them.

Another factor contributing to the desirability of Barbers is also the one turn-off to would-be collectors. At today's prices, nobody is willing to let go of the key dates. Levels on the better date coins have not changed appreciably in quite some time. Speaking as one of the few major dealers who makes a two-way market in certified Barber coins, we can say that finding specific date/mintmark issues for want lists has become very difficult. We could easily witness an increase of 20-30% in wholesale prices before enough coins come on the market to satisfy customers.

### You're In Good Company

Even though the Barber Dimes, Quarters and Halves were quite unpopular at their time of issue, they are very desirable issues today, and complete sets have been present in many great collections. Charles Barber, Chief Mint Engraver from 1880 to 1917, was not a popular man, and his designs, which also include the Liberty (V) Nickel, were not popular and not saved. Many of these issues are truly rare today as a result. Consider the 1904-S Half — the key to the set — with only 28 coins in all Mint State grades. Surely there are more people looking for this coin than there are coins available. We haven't seen a Mint State example in over a year! And it's not for lack of trying.

One phenomenon which has kept the prices of Gem Barber material down in the past decade has been the surfacing of several fantastic collections. Yet, with only a few exceptions, they only contained one of each date.

In this article we want to discuss some of the 225 or so Barbers that make these our favorite series. To understand Barbers it is helpful to look at Rarity Ratings of the issues. Rarity Ratings were first made popular by A. C. Overton in his study of Bust Halves. We subsequently used them in all our "Complete Guide" books, and they have turned out to be very popular. Different series require slightly different definitions for these RR, but to our surprise the three Barber series each turn out to have exactly the same criteria. In our recent book, *The Complete Guide To Certified Barber Coinage*, these were defined as follows:

#### RARITY RATINGS DEFINITIONS:

- R1 — Common (Mint State population over 200 coins)
- R2 — A slightly better date (Mint State population of 125-199 coins)
- R3 — A better date (Mint State population of 85-124 coins)
- R4 — Scarce (Mint State population of 60-84 coins)
- R5 — Very Scarce (Mint State population of 40-59 coins)
- R6 — Extremely scarce (Mint State population of 15-39 coins)
- R7 — Rare (Mint State population of 6-14 coins)
- R8 — Rare (Mint State population of 5 or fewer coins)

From this, the following table of Rarity Ratings was developed. Not only does the table afford you a quick guide to how scarce a particular date is, but it also should be used as a guide to assembling one or all of these sets. Two rules apply: 1. Try to acquire the coins with the higher rarity rating first; 2. The higher the rarity rating, the more you need to relax your standards. In other words, you can seek the almost perfect specimen of an R1 date, but don't pass any decent example of an R4 issue you need, and never pass on an R5 or R6. You can always upgrade later.

### Barber Dimes

**Philadelphia issues:** The 1892 and 1916 are the obvious Type coins of the set, and most other dates are common too. 1895 is scarce, but overrated, when price is considered. We have always liked 1894 & 1896, but these are now only R2! 1903 is slightly better at R3, and 1904 is definitely better in MS65 and above, but the P-Mint Dimes don't contain the surprises found with the P-Mint Quarters and Halves.

**New Orleans issues:** Check the table; these are tough ones, led by 1896-O and 1894-O, which are even scarcer than the 1895-O. To make matters even more challenging, these O-Mints are often poorly struck. Some dates, like 1898-O and 1907-O, are almost always soft, and even the best O-Mints are rarely as well struck as some P or S-Mint issues. As a result, the O-Mints tend to be very scarce in very high grades. Expect to pay quite a premium for well struck issues.

**San Francisco issues:** Excepting the '94-S, which is a great rarity on par with the 1804 Silver Dollar, the S-Mints tend to be available, at least once in a while, and except for 1909-S, they come well struck. We like 1898-S and 1901-S, and 1895-S in high grade. Actually, we like them all. Even the supposedly more common issues, such as '16-S, can be a challenge.

**Denver Issues:** Of these, only the 1907-D and 1909-D — with scarcities of R5 & R4, respectively — are truly tough.

### Barber Quarters

**Philadelphia issues:** Only two, 1903 and 1913, are better. The 1913 is low mintage, and Mint State pieces were once considered rare because all the early collections substituted Proofs. Now we know it to be fairly available — in fact, it sometimes is the only better date in the set you can count on finding at a large show. The 1903, like its Dime and Half Dollar counterparts, is a surprise.

**New Orleans issues:** While the three "keys" to the set are S-Mints, the rest of the scarce Quarters are dominated by the New Orleans coins. The O-Mint Quarters tend to be better struck than the Dimes, with the exception of 1907-O & 1909-O. They still don't come as sharp as S-Mints, but a few of the early years (1894-O, for example) occasionally come Prooflike.

Of the R5 issues shown in the table on the following page, the 1909-O is by far the most desirable because it is also rare in Circulated grades EF and AU. We have had to substitute Mint State specimens in several AU sets over the years. The '98-O enjoys stronger than expected demand also, but all R5 and R4 dates should be respected.

**San Francisco issues:** There are three R6 dates — 1896-S, 1898-S and 1901-S. Note that the very desirable 1913-S is not among them — not even an R5. Of these, 1901-S is the undisputed king. Don't let its population fool you into thinking it might be overpriced. It isn't. This is the only Barber we would inventory in any condition — from AG to MS65+. We have bought them with scratches and corrosion, and we have even bought specimens which were harshly cleaned. They always sell. The '01-S is extremely rare in EF and AU grades. A nice AU is easily worth \$10,000.

Having said that, we still find a Mint State 1896-S to be the best buy. Some come PL and bring very strong premiums. Unlike the '01-S, '96-S is available in all Circulated grades, though nice AU55/58 examples are scarce.

The 1898-S is very tough in Mint State, but quite common in EF/AU grades. For this reason, it doesn't command respect as a date. Among collectors, the 1897-S is a better coin because it is scarce in all Circulated grades, like the '01-S.

1913-S is one of the "big three" even though only an R4 in Mint State. This issue has the lowest mintage of any 20th century regular issue Silver coin, and, though some were saved in MS, is rare from Fine to AU. Remember that price reflects both supply and demand. The '13 S enjoys huge popularity and is always hard to locate.

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

1914-S is similar to '13-S, but not quite as scarce. 1899-S is similar to '98-S, but a little more plentiful in Mint State and not quite as common in EF/AU.

**Denver issues:** Only 1911-D is scarce and then only an R4. But it also is scarce in EF/AU grades and should not be passed up. Most Denver Quarters are weakly struck, especially on the eagle's right claw and sometimes on the mintmark as well.

The 1916-D is by far the most common of all Barber Quarters, and though it can be found "fresh" and frosty, it doesn't make a good Type coin because of its strike. We prefer 1892-P for this.

Barber Halves

**Philadelphia issues:** There are several P-Mints that are low mintage, led by 1913, 1914 and 1915. However, these three are late in the series, and a fair number were saved. The '14, in particular, is overrated. More surprising is the 1903, which is not low mintage, but like its Dime and Quarter counterparts, is scarce. At R5, it is probably tougher than even many longtime collectors realize.

1904 is similar to '03, but a little more available. 1905 is low mintage and a middle year, so its scarcity is predictable.

**New Orleans issues:** As expected, many of these are very tough, and of course, they are often weakly struck. The table shows that 1896-O is R6, and six other O-Mints are rated R5! In fact, the Half Dollar series has more R5 dates than either the Dimes or Quarters, and while they can all be obtained eventually, they make the set a major challenge.

The 1898-O is probably the most popular O-Mint, followed by 1897-O, because of its scarcity in almost all Circulated grades. For a while, the

1900-O and 1901-O were the most prized because they had MS65 levels in the stratosphere. But as the population reports gained the benefit of time, these were shown to be merely two of the scarce dates.

**San Francisco issues:** If there is one stopper to this set, it is the 1904-S. Far scarcer than even the 1901-S Quarter, this date is no secret to anyone trying to assemble the set. It is not uncommon for this coin to bring more than double "Bid" at auction, and when one appears, it ends up frustrating more collectors than probably any other coin in the catalog.

The 1901-S has risen to the top recently, which vindicates the old-timers who always thought it was the key. There are nine S-Mints rated R5, and all are a challenge. These are generally well struck and some have flashy luster. Perhaps our favorite is 1902-S because it is not a low mintage and wouldn't likely come to mind as a rare date. We have worked on many Barber Half want lists over the years, and somehow the '02-S always is one of the last dates to be found.

**Denver issues:** There are no scarce D-Mints. Both 1911-D and 1913-D have lower mintages, but relative to the O & S-Mints, they are available.

David Lawrence Feigenbaum founded David Lawrence Rare Coins in 1979. David was diagnosed with Lou Gehrig's Disease in 1996, a malady which has robbed him of all his muscle movement. Even though he can barely speak, Dave is now able to write with his eyes using a fantastic new device. John has worked with his father since he was ten years old and took over day-to-day activities at David Lawrence Rare Coins in 1997.

The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades. |        |                                                                                                                                                                                                                                   |        |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                   |        |        |        |        |        |        |       |       |       |       |   |       |       |   |       |

Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date. |        | Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mini State Morgan, but with the additional feature of deep mirror surfaces on both sides.                                                     |                                                                                                                                                                                                                                   |        |        |        |        |        |        |       |       |       |       |   |       |       |   |       |

# THE MOST MONEY THE LEAST HASSLE

SEE US AT ALL  
Major Shows

If you have coins to sell, it's time to call SPECTRUM!  
Dealing with SPECTRUM means more money and  
less hassle for you, and here's why:

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Included in our recent purchases is the Wells Fargo® Nevada Gold hoard, which was one of the largest financial transactions in the history of numismatics. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

*I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.*

*Spectrum* has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

**Call us collect at 949-955-1250.  
Do it today!**

for over a quarter of a century, collectors needing confidential direction and reliable advice have successfully turned to

## Julian M. Leidman

Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the *formation of your collection*; with more than 30 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with *confidential advice*, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your *personal representative* for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the *orderly disposition* of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can *appraise* your collection or individual pieces. You know your needs best; contact me for *expert* assistance.

### MORGAN & PEACE DOLLAR SPECIALISTS

We are one of the largest Morgan and Peace Dollar dealers in the country, specializing in key and semi-key dates. We are helping to assemble several of the top dollar collections in the nation. We have handled multiples of every date in Mint State including 1884-S,

1889-CC, 1892-S, 1893-S, 1895, 1895-O and 1901 during the past year.

- Strong premiums paid for blazing white pieces, fully struck pieces,
- coins with fewer than normal marks, etc.
- PCGS or NGC certified, grades 60-68, Mint State or Proof.
- Call or write if you have coins to sell or if you want to be added to our • free mail list.

Single copy price: \$4.00

### THE TEN COOLEST UNITED STATES COINS

by Douglas Winter

About five years ago, a dealer who specialized in ultra-expensive United States coins had an advertising campaign that said, basically, your entire coin collection should be able to fit into a single PCGS/NGC coin storage box. Such a box holds exactly twenty coins.

This was obviously an elitist sentiment, and it was generally derided as being pretentious. But I thought it had some merit. In numismatics, quality is always a surer bet than quantity (although a large quantity of great quality is best of all).

I recently got a phone call from a wealthy new collector who asked me to draft a very interesting proposal for him. He was interested in collecting coins, but he had very little spare time available to devote to learning about them. So he asked me to come up with a list of ten coins that, in my opinion, were the most significant United States issues. As I got to thinking about this list of coins, I drew up the following parameters:

1. The coins had to be very historical.
2. Their historical significance had to be easily understood, even by someone who didn't know much about U.S. history or coinage.
3. They had to be coins that were always in demand, in good markets and bad.
4. They had to have multiple levels of demand. In other words, they had to be considered desirable by a number of different groups of collectors.
5. They had to be attractive in terms of their design.
6. They had to be rare but not so rare that they commanded an inordinate date premium.

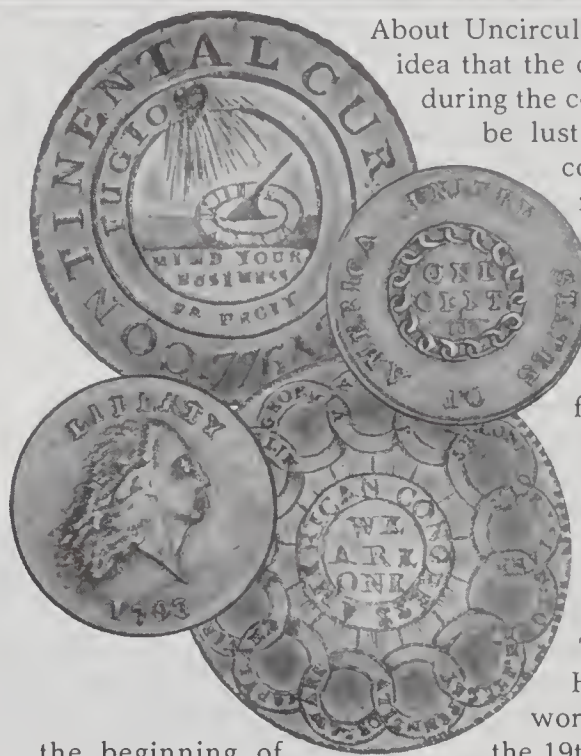

This collector gave me some other parameters to consider as well. While wealthy, he did not have unlimited funds; nor did he like coins enough that he wanted to put a huge amount of his net worth into his collection. This collection would not consist of the "finest known" or the "best" of anything. Rather, it would consist of ten attractive, original, above-average quality examples of the ten most interesting and readily liquid United States coins. In essence, this collection would be themed as the "coolest coins ever struck in the United States," if you will.

Here is the list that I prepared for this collector, along with why I thought each coin should be in this small but special collection.

**1. 1776 Continental Dollar.** This is not a regular issue coin, but rather a proposed or speculative issue. Varieties are known in silver, pewter, copper and brass, and with different spellings of the word "CURRENCY." For this set, I would suggest a pewter piece with the spelling "CURENCY" and the lack of the designer's initials (represented on this coin as "EG FECIT," which denotes that engraver Elisha Gallaudet made it).

It is probable that these coins did circulate in colonial America, and that they did have a recognized value. This fact makes them a legitimate candidate for the first "Dollar" struck in this country as well as the largest coin, in terms of size, issued prior to the establishment of the United States. The magical date 1776 makes them even more desirable, in my opinion. And, finally, the charming design on the reverse (featuring thirteen interlinked rings with the name of each colony and symbolizing unity) is believed to have been suggested by Benjamin Franklin.

For this set, I would opt for a very slightly worn piece; perhaps in the

About Uncirculated-55 to 58 range. I like the idea that the coin saw some light circulation during the colonial era but would want it to be lustrous and well struck. Such a coin would cost \$7,500-\$10,000, making it an exceptional value for such an incredibly historical issue.

**2. 1792 Half Disme.** After obtaining its independence from Great Britain, one of the first legislative acts that the United States considered was the establishment of its own coinage. The first experiments were conducted in 1792. Most of the initial United States Mint issues are extremely rare today. The most available is the 1792 Half Disme (the spelling of the word "Dime" was not changed until

the beginning of

the 19th century).

The story behind this coin is very interesting. George Washington was actively involved in its production, and legend has it that he contributed his family's personal silverware for use in the striking of these coins.

Approximately 1,500 pieces were made, and survivors are a bit more plentiful than generally realized. This is an extremely significant coin as it is believed to be the first United States issue struck by Mint personnel in any quantity for use in circulation.

For this set, I would look for a Choice Extremely Fine coin with original coloration and nice surfaces. The current value of such a coin is approximately \$30,000-\$40,000.

**3. 1793 Flowing Hair Chain Cent.** The first two denominations to be struck by the United States Mint were the Half Cent and the Cent. Coinage for both began in 1793. Three designs are known for 1793 Cents. The first, and most appealing in my opinion, is the Chain Cent.

A total of 36,103 1793 Chain Cents were produced. The very first of these are easily identified by having the abbreviation AMERI. (for AMERICA) in the reverse legend. In my opinion, these are by far the most desirable of the major varieties, and it is believed that around 7,000 were produced.

Chain Cents are often found very well worn and generally come with the obverse much weaker than the reverse. For this set, I would select a nice Brown Extremely Fine to About Uncirculated piece. I would be very careful in making my selection and would look for a piece with good eye appeal and above average strike and nice surfaces. Coins like this are rare and in great demand, and I would expect to pay well in excess of current published values. An Extremely Fine coin is currently valued in the \$20,000-\$30,000 range while an About Uncirculated coin is worth \$35,000-\$45,000+.

**4. 1794 Flowing Hair Silver Dollar.** The Silver Dollar was among the first coins authorized by the United States government. It is hard to think of a more significant coin for the fledgling United States than the Dollar as it was the largest circulating coin at the time, both in terms of its size and its value.

This was a very difficult coin for the new mint to strike as they did not own equipment for coins larger than a Half Dollar. In addition, most 1794 dollars were struck from improperly aligned dies, making the date, the left stars, and the words UNITED STATES appear very weak.

Of the 1,758 pieces believed to have been struck, around 125 are known today. For this set, I would look for a nice, evenly worn Choice Extremely Fine with as sharp a strike as possible. In particular, I would look for a coin with a well-defined date and reasonably sharp stars. This is another issue that is in great demand, and nice coins always bring

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

much more than published values. I would expect to pay between \$75,000 and \$90,000 for the right piece.

**5. 1795 Capped Bust Eagle, 13 Leaves.** The Eagle, or Ten Dollar Piece, was the highest denomination American coin until the Twenty Dollar Gold Piece was authorized in 1849. The essence of this coin is very easy to state in a few words: it is the first year of issue of the most important Early Gold Type.

Only 5,583 1795 Eagles were struck. There are a few hundred pieces known, and this includes more high grade pieces than one might expect. The 1796 Eagle is a much rarer coin, and it is very undervalued in relation to the 1795. But I would much rather have the 1795 due to its significance.

For this set, I would choose a Choice About Uncirculated example with clean surfaces, no significant adjustment marks, original color and a sharp strike. Such a coin, when available, would probably cost in the area of \$30,000-\$35,000.

**6. 1836 Gobrecht Dollar.** After a three decade hiatus, the Silver Dollar was resurrected in 1836. Its design was considered one of the most important projects undertaken by the new Mint Engraver Christian Gobrecht. From 1836 to 1839, he prepared a number of designs which are among the most attractive coins ever struck in the United States in my opinion. My personal favorite is the so-called 1836 "original" Die Alignment I, Plain Edge with the engraver's name, C. GOBRECHT F. ("F" meaning Fecit, which means "made it"), on the base of the obverse and the reverse with the eagle flying upward.

1,000 of these were struck as Proofs at the end of 1836. They were made for circulation and can be distinguished from those struck in 1837 (but dated 1836) by the orientation of the eagle on the reverse. They are generally found with some degree of wear, and for some reason, uncleaned pieces generally have extremely deep toning.

For this set, I would select a Proof-63 example with attractive coloration, minimal detracting hairlines and good overall eye appeal. I would expect such a coin to cost in the area of \$10,000-\$15,000.

**7. 1850 Double Eagle.** The first regular issue Double Eagles are dated 1850; examples were struck at both the Philadelphia and New Orleans mints. Although the Philadelphia issue is much more available than its branch Mint counterpart, I have long felt that the 1850 Double Eagle was one of the most important United States coins. In a nutshell, it is the first collectible Double Eagle, and the Twenty Dollar Gold Piece is the largest and most popular United States Gold coin.

1,170,261 1850 Double Eagles were struck, and this is not an especially scarce issue in Circulated grades. There are around 40-60 known in Uncirculated with most of these in the MS-60 to MS-61 range. This date is often found with an especially sharp strike, nice coloration and very good eye appeal.

For this set, I would select a Mint State-61 example that was original, lustrous and minimally abraded. The cost of this coin would be in the area of \$6,000-\$9,000, making it among the best values in this collection.

**8. 1861-D Gold Dollar.** The 1861-D Gold Dollar is the only coin that can be positively proven to having been struck by the Confederacy. After the branch mint at Dahlonega was seized in April 1861, a small number (1,000-2,000) were produced. Unlike such issues as the 1861-C Half Eagle and the 1861 O Double Eagle, which had mintage figures that include Federal and Confederate striking, every single 1861-D Gold Dollar is a

http://www.greysheet.com • cdn@greysheet.com

Confederate striking. This makes these coins, in my opinion, among the most historical issues available to collectors.

There are approximately 75-100 examples known with the typical specimen grading About Uncirculated. This issue is generally found with a poor strike and some planchet irregularities. The 1861-D Gold Dollar I would choose for this set would be a very high end About Uncirculated-58 with as good a strike and as clean surfaces as possible. The cost for such a coin would be in the range of \$17,500-\$20,000.

**9. 1879 Flowing Hair Stella.** The Four Dollar "Stella" (so named because of the prominent star on the reverse) was a result of discussions regarding international trade coinage during the 1870's. A very limited number were made, with two different designs, during 1879 and 1880. The most available of these is the 1879 Flowing Hair restrikes.

The official mintage figure for the 1879 Flowing Hair Stella is 415 coins, although it is possible that a few more were produced. Approximately half of the original mintage survives today, in grades ranging from Very Good to Gem Proof.

My choice of Stella for this set would be a Proof-63. I would try to look for a coin with nice original surfaces, pleasing color and minimal hairlines or marks. A coin of this quality would cost in the area of \$50,000-\$55,000.

**10. 1907 High Relief Double Eagle.** Theodore Roosevelt believed that United States coinage designs had, by the early 1900's, become stale and out of touch. He was particularly eager to redesign the four United States Gold denominations.

For the Eagle and Double Eagle, he hired the prominent sculptor Augustus Saint-Gaudens.

Saint-Gaudens' battle with the entrenched Mint personnel is well known, as is their subterfuge of his spectacular original design. The "High Relief" that most collectors are familiar with today is a severely watered-down version of his incredible "Ultra High Relief" design. Nevertheless, the 1907 High Relief is still widely regarded as the most beautiful American Gold coin.

11,250 examples of this design were struck, and the survival rate is uncommonly high. Despite this coin's relative availability, it is still a highly priced coin. But it is priced relative to its extreme popularity, and in my opinion, it is an essential member of this ten coin set.

The High Relief that I would include would be a high end MS-64. The cost of such a coin would range from \$14,000 to \$17,000.

The total cost for this set, with each of the coins in the grade ranges described above, would be approximately \$265,000-\$330,000. It would probably take a number of years to complete it; especially if the collector is very particular in regard to the quality of each piece.

It is my opinion that this would be a great set of coins to assemble. There are certainly other American coins that can also be considered "cool," but these are the ones that I find most appealing.

If you would be interested in assembling a set such as this (or any other set of United States coins), please do not hesitate to contact me.

# UNITED STATES RARE COINAGE

## A Selection of New Purchases

### INDIAN CENT

**1877 1C PCGS AU50.** Medium brown toning has golden-rose highlights. The key to the Indian Head Cent series and always in demand. PCGS has certified only a few dozen in the About Uncirculated classifications. Here is a beautiful example. . . . . \$1,700

### BUST QUARTER

**1796 25C NGC MS64 AT.** Glossy uniform grayish violet toning covers both sides, with lighter lavender hues clinging to the devices. This example is sharply struck throughout, with the sole exception of the eagle's head, which is always poorly defined on this die variety. The 1796 Draped Bust, Small Eagle reverse Quarter is a classic one-year only type, representing the first year in which the denomination was coined. Just 6,146 were struck. NGC has graded only around a dozen at this level, or higher. . . . . \$54,500

### STANDING LIBERTY QUARTERS

**1918/7-S 25C PCGS F12.** Light gray toning. The date is a bit weak, but there is no doubt that this coin is the coveted overdate. This rare and famous variety was not discovered until 1937, and has been an integral part of any specialized set since that time. . . . . \$1,800

**1929-S 25C FH PCGS MS66 L.** Full head. Bright and frosty, showing a uniform pale rose iridescent glow and faint rainbow peripheral color. It is a lovely type coin. . . . . \$1,275

### BARBER HALF DOLLAR

**1897-S 50C NGC MS66 W.** Blast white mint brilliance. This key Barber Half Dollar issue ranks among the finest known. NGC grading has just two at this level, with two higher. . . . . \$8,650

### SEATED DOLLARS

**1863 S\$1 NGC MS64 L.** Sharply struck, with nearly full mint luster casting a faint golden glow. Fields are semi-prooflike and the devices offer a light frosted contrast. Silver Dollars of the Civil War period were struck only at the Philadelphia Mint in small quantities and today are well known rarities at this grade level. Additionally, it is the classic No Motto type. . . . . \$11,500

**1852 S\$1 RESTRIKE PCGS PF62 W/PQ.** Dazzling white centers with whisper of golden toning at edges. Surfaces are nicer looking than the grade would imply. Breen give no proof mintage for these restrikes but calls them "very scarce." PCGS indicates 35 pieces. According to PCGS and NGC Population Reports, there are only about a dozen specimens of this date in Proof-60 or above. This represents an important opportunity. . . . . \$32,500

**KEY:** AT=Attractively Toned, BT=Beautifully Toned, C=Cameo, D=Dark, L=Light Toned, RD=Red, RB=Red Brown, T=Toned, W=White

### TERMS OF SALE

### MORGAN DOLLARS

**1889-CC S\$1 PL NGC MS64 W.** Surfaces are pure white and reflective, possessing absolutely the most minute of ticks. Sharply struck frosted devices stand out in bold contrast. Liberty's cheek is smooth and virtually perfect, offering the appearance of a higher grade. NGC has graded just five at this level and a single example one grade higher, while the PCGS population is three at this level, none higher. Certainly, this coin is among the finest obtainable carrying the prooflike designation, and worthy of the finest collection. . . . \$29,000

**1893-CC S\$1 PCGS MS64 W.** Pure white except for halo of pale golden toning at edges. Very attractive. Only 8 examples have been graded slightly better by PCGS and NGC. . . . . \$7,150

### PEACE DOLLARS

**1924-S S\$1 NGC MS65 L.** Superb surfaces highlight this impressive Peace Dollar. Both sides show a hint of golden color over pure mint frost. NGC and PCGS have each graded around 50 as "65," and very few higher. This coin deserves appreciation as one of the finest at this grade level. . . . . \$6,150

**1934-S S\$1 PCGS MS65.** Well struck and frosty, with immaculate surfaces. The key "34-S" was virtually unknown in Mint State until the early 1960's, when a hoard was located in San Francisco. In the 1960's and 1970's, when these were being filtered into the numismatic marketplace, it was recognized that few achieved Gem classification. Today, due to the extreme popularity of the Peace Dollar series, the limited number of high end examples have been dispersed and are seldom obtainable. This impressive coin should sell quickly. . . . \$5,350

### \$1 GOLD

**1854 GS\$1 TYPE 2 PCGS MS65 PQ.** Here is an amazing Gem Type II Gold Dollar. It is sharply struck throughout, without die clashing, and surfaces are virtual perfection. A rose iridescent blush complements glittering, satin-like mint frost. The spectacular visual appeal of this coin certainly supports claims toward a higher classification. PCGS has graded approximately two dozen at this level, and all criteria considered, it is doubtful that any of those are its equal. . . . . \$52,000

### EARLY \$2 1/2 GOLD

**1833 \$2 1/2 NGC AU58.** Here is a superb coin, showing no marks, merely light hairlines. It is well struck, and a pretty rose iridescent glow enhances the visual appeal. This distinctive Capped Head left type has the reduced size planchet format, struck only from 1829 to early 1834. Mintage was just 4,160 pieces, and today, this date is considered to the second rarest of the series. NGC has graded a grand total of 15 business strikes, and a single Proof. There are five at this level, and five Mint State coins among that number. . . . . \$8,500

### \$2 1/2 LIBERTY GOLD

**1901 \$2 1/2 PCGS MS67.** Fully struck, satin-like, and as close to perfection as a business strike gets. A soft rose iridescent glow enhances the outstanding visual appeal of this jewel. Here is the ultimate 20th century Liberty Head Quarter Eagle type coin. . . . . \$6,500

### \$3 GOLD

**1865 \$3 NGC MS66.** Fully struck and frosty, showing a hint of reflectivity in the fields and gorgeous rose iridescent toning. Devices show a light frosted contrast. It is a magnificent example of this Civil War era Three-Dollar denomination gold piece. Business strike production numbered just 1,140, and all were produced on February 27, 1865, near the end of the conflict. Today, a scant three pieces achieve this lofty classification and none grade higher. All are graded by NGC. Absolutely the finest obtainable. . . . . \$46,500

**1883 \$3 PCGS MS62 PQ.** Vibrant mint brilliance and prooflike surfaces highlight this important low-mintage date. Devices stand out in frosted contrast, providing outstanding visual appeal. It is a premium quality example and one of just 900 business strikes coined. . . . \$5,250

**1883 \$3 NGC MS64.** Prooflike, with contrasting frosted devices. Absolutely gorgeous, and a wonderful value when the cost of an example grading one point higher is considered. A mere 900 business strikes were coined. . . . . \$8,500

### EARLY \$5 GOLD

**1808 \$5 NGC MS62.** Fully struck, and as such, it is an outstanding representative of the Capped Bust left type. Bold, frosty surfaces have the overall appearance of a higher grade, possessing only a few trivial obverse hairlines. The Capped Head to left type was struck only from 1807 to 1812, and is a highly desirable early gold coin, particularly in Mint State. \$7,100

### EARLY \$10 GOLD

**1804 \$10 CROSS 4 NGC MS63.** Beautiful mint frost has a faint greenish gold glow. It is sharply struck throughout, without detracting marks. Eye appeal is outstanding. NGC and PCGS combined have graded just five at this level, and a single coin one grade higher. Just 3,757 pieces were struck near the end of 1804, after which production of the Ten Dollar denomination was halted until 1838 when Gobrecht's Liberty Head design commenced. Among Capped Bust, Heraldic Eagle issues, this date has been a recognized rarity since the middle 19th century. Today, many years often lapse between offerings in this superlative condition. . . . . \$89,500

### \$20 SAINT-GAUDENS

**1850 \$20 PCGS AU50.** This lovely Liberty Head Double Eagle represents the first year the denomination circulated. Bright yellow gold has a pleasing rose tone at the rims and around the devices. Scarce in this high grade. . . . \$1,650

**1907 \$20 HR WIRE ED NGC MS64.** Partial wire edges on both sides. Mint luster is more vibrant than seen on most specimens, and the satiny surfaces are nearly free of blemishes. Overall appearance of this coin is equal to many graded "65," or better, though some reverse rim nicks probably resulted in this conservative classification. The High Relief Double Eagle is a legendary 20th century rarity which many consider America's most beautiful coin design. This example epitomizes all Augustus Saint-Gaudens envisioned when undertaking the task of producing a numismatic work of art, as requested by President Theodore Roosevelt. . . . . \$16,500

**1920-S \$20 NGC MS62.** One of the great rarities in the St. Gaudens Double Eagle series. This coin has wonderful mint luster and minimal surface marks, offering excellent eye appeal. Both sides show a glimmer of rose iridescence. Although the mintage of this classic San Francisco Mint issue was large, nearly the entire production run was melted, accounting for its rarity today. Only around 100 examples have been reported. . . . . \$32,500

**1922-S \$20 NGC MS64.** Pleasing mint frost has a pale pink iridescent glow. This desirable San Francisco Mint issue has a rather nondescript mintage, but a remarkably low population compared to many issues within the series. A great value. . . . . \$4,150

**1925-D \$20 PCGS MS64.** Frosty, with pretty pinkish rose iridescent toning. This issue is one of the keys within the series, even though the reported mintage approaches three million. It was virtually unknown to collectors until small groups surfaced in Europe in the 1950's. Now, it is highly coveted and appreciated as a major Double Eagle rarity. . . . . \$17,000

### U.S. PATTERNS

**1863 2C J-318 NGC PF66. P-383.** Struck in aluminum. Plain edge (Rarity-7). Bright white and flawless. Struck from dies nearly identical to the regular issue, but with a somewhat larger motto IN GOD WE TRUST and dated 1863. This very rare coin is unique in an NGC encapsulation, and although three have been graded by PCGS, none have achieved this lofty classification. Very likely the finest known. . . . . \$8,250

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

|                                                                                                                                                                                                  |                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.                     | MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins. |
| MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible. | MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive ton                                                                               |

# NEED GRAPHS?

## 1999/2000 CDN GRAPH BOOKS

**NEW!**

The CDN Graph Books are the only source for historic pricing data. Knowing the all-time high, the historic low and the current value are crucial when making **Buying or Selling** decisions. Every serious numismatist will treasure the entire series of **CDN Graph Books**.

### Values Hidden Among Indian Gold

by Don Bonser

Make no mistake; Indian gold coins are popular. Undeservedly so, say some. Many much scarcer issues in the Liberty \$2.50, \$5, and \$10 series go wanting, while much more frequently-available dates in the corresponding Indian series sell more rapidly, and for more money. How can this be?

Obviously, Indian gold is in greater demand. Collectors like sets, and sets of \$2.50 and \$5 Indian gold coins can be completed within a reasonable amount of time in nice condition. The series were rather short-lived (only fifteen dates comprise a complete set of \$2.50 Indians!). There are no mind-boggling rarities among the Indian Series (except, perhaps, the 1933 \$10), so it is possible to form complete, impressive sets without having to attend every major numismatic auction over the course of ten years and spend huge amounts of money.

Indian gold is also considered to have some of the most inspired designs used on United States — or even world — coinage. Bela Lyon Pratt's work was used on both the \$2.50 and \$5 coins, and Augustus Saint-Gaudens' on the \$10. Pretty sells, and these coins are much more than that. Each design is singularly beautiful, and lends itself especially well to the color of gold.

That said, these series are popular and likely to remain so. However, in each are dates and grades that may be somewhat overlooked, in that they are difficult to find at current price levels or may become more difficult to find if current demand increases. Let's look at each series individually. Population figures quoted are combined PCGS and NGC figures current as of the respective services May 2000 population reports; prices quoted are from the July *Greysheet Monthly Supplement*. Bear in mind that premium quality certified specimens will likely cost you a good bit more than these figures, and retail prices, therefore, will be substantially higher.

#### \$2.50 Indians (1908-1929)

Only fifteen dates comprise this series, and none is particularly rare. The key 1911-D is understandably popular, though reasonably available in grades of MS63 and below. A second "near key" that has emerged over the years is the 1914 Philadelphia issue. The 1914-D is somewhat scarcer, but not rare (although it eclipses the 1914 in MS65!). All the other dates are common, with several becoming scarcer in MS64 and MS65. I consider the following to be current values in the series:

- **1910**, MS64 (population: 379, 79 better). It's tougher to locate than its \$1,200 bid would indicate, and with MS65's at \$4,000, it looks like a bargain. However, most folks putting together sets right now seem to be content with MS63's and lower.
- **1911-D**, MS64 (population: 269, 23 better). It's the undisputed key, and although in any grade it's an easy sale, it truly is tough to find nicer than MS63. With a bid of \$9,300 in MS64 and a lofty \$37,500 in MS65, a nice MS64 is worth looking at. A word of caution: some examples of this date come with the mintmark weakly struck, which can become especially noticeable on circulated coins. When the "D" is noticeably weak, the grading services will note "weak D" on the holder. Such coins are worth less than those with a normal, "strong D."

- **1914**, MS60 (population: 134, 2,379 better). It's nearly a key, at least in that it is the second scarcest date of the series. However, it is reasonably available in all grades, even MS63, MS64, and MS65, the latter thanks to a small number of higher-grade specimens that have entered the market in recent years. With MS63's bid at \$2,000, much pressure falls on nice MS60, MS61, and MS62 specimens. I'd place hypothetical bids of \$400 for MS61's and \$800 for MS62's, and consider them to be good values, as well. When I have needed one for someone's set, I have found this date to be surprisingly elusive in as low a grade as XF or AU!

- **1914-D**, MS64 (population: 530, 37 better). It's the third toughest date in the series, and can be downright hard to find sometimes in near Gem Uncirculated and better. With MS64's bid at \$2,000 and MS65's bid at \$9,200, a quality MS64 should be hard to beat. Look for a nice one with a minimum of weakness in the feathers of the Indian's head-dress, something this date is noted for.

#### \$5 Indians (1908-1929)

With only 24 date/mint combinations, this set is a short and attractive one as well. It boasts only three rarities/keys, all of which we'll discuss shortly — the 1909-O, 1911-D, and 1929. Most of the San Francisco issues can be considered semi-keys, and various condition rarities present themselves in this series. It is not all that difficult to complete a very nice set from XF through low Mint State, but some of the dates become extremely rare in MS64, and many more become so in MS65. Turn to page 3 and look at Bid in MS65, and you'll see what I mean. I consider the following to be current values in the series:

- **1908-S**, MS60 and MS63 (population: MS60, 5; MS61, 343; MS62, 54, MS63, 57; and 116 better). Try to find one, and you may be surprised at how difficult it is to locate. Even "lowly" XF40 and XF45 specimens are rapidly snapped up whenever I get them by eager collectors or other dealers.
- **1909-O**, MS60 (population: 14, 65 better). It almost doesn't exist in the open market. This date is incredibly easy to sell in any grade, and even damaged or jewelry-mounted circulated specimens find quick homes. With MS63's at \$35,000 bid, a nice MS60 or MS61, if it can be found, looks like a really good deal. Unless you're very lucky, don't expect to find one near the \$4,600 wholesale bid. Don't be afraid to purchase a nice XF or AU temporarily for a higher-grade set. It will probably be very easy to sell or trade when you can upgrade.
- **1910-S**, MS60 or MS61 (population: MS60, 24; MS61, 57; MS62, 47; MS63, 21; and 30 better). With a bid of just \$740 in MS60 but \$5,000 in MS63, you can see why I think it represents a good value. Expect MS60's and MS61's to look a little "dirty" or "circulated." The contact imparted by other coins on this incuse design often leaves behind dirt and lightly abrades the high points of low-end Uncirculated specimens.
- **1911-D**, MS60 (population: 16, 127 better). With a bid of \$2,450 in MS60, it's reasonably available as a low-end Mint State coin, but you may have to do some legwork to find it. MS63's at \$15,000 certainly put some pressure on the lower-end Mint State pieces. This is another date that sells well, even in the lower Circulated grades.
- **1911-S**, MS63 (population: 101, 42 better). This is another value based on appearance and price. MS63's are bid for \$2,000, but MS64's are bid for \$14,500. I think I'd rather have seven

## the COIN DEALER newsletter MONTHLY SUPPLEMENT

| EXECUTIVE DIRECTOR | Pauline Miladin | PUBLISHER                 | Shane Downing |
| EDITOR             | Keith M. Zaner  | CIRCULATION & ADVERTISING | Betty Morris  |

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

<http://www.greysheet.com> • [cdn@greysheet.com](mailto:cdn@greysheet.com)

- MS63's over the long term. This date is typically a very pretty, yellow gold in grades of MS63 and higher.
- 1913-S, MS60 or MS61 (population: MS60, 21; MS61, 78; MS62, 139; MS63, 35; and 10 better). Similar to the 1910-S, with an MS60 bid of \$1,025 but an MS63 bid of \$8,250.
- 1914-D, MS64 (population: 185, 15 better). This date at \$4,100 in MS64 is bid only about twice the price of a common date, but is much scarcer. With only 15 certified, the MS65 at \$25,000 doesn't look too bad, either.
- 1915-S, MS60 or MS61 (population: MS60, 12; MS61, 55; MS62, 58; MS63, 31; and 11 better). This is a tough date to locate (and an easy one to sell) even in lower Circulated grades. A nice MS60 or MS61 looks like a good value with MS60's bid for \$1,485, but MS63's bid for \$6,600.
- 1929, MS60, MS63, and MS64 (population: MS60, 11; MS61, 31; MS62, 61; MS63, 88; MS64, 124, and 8 better). This should have been a common date, but the overwhelming majority were melted. I estimate that fewer than 750 exist today in all grades. However, most of these survivors never entered circulation, so a Circulated 1929 \$5 is a true rarity! This is a very easy coin to sell in any grade of MS60 through MS64. With common date \$5 Indians worth a little over \$2,000, one of these in MS64 at only about five times the price of a common date seems almost too good to be true. Because it's a truly rare coin, MS60's and MS63's with respective bids of \$4,600 and \$6,150 appear to be good deals, too.

### \$10 Indians (1907-1933)

With 32 date/mintmark/variety combinations, this is the longest of the three Indian gold series, and it contains more rarities than the other two. The 1907 Wire Edge, the 1907 Rolled Edge, the 1920-S, the 1930-S, and especially the 1933 all qualify as major keys, and are very expensive, even in lower grades. Of the keys, the 1920-S is the only one seen reasonably often in XF or AU; the rest are much more commonly found in higher grades, especially the 1933. The 1933 \$10, like the 1929 \$5, became a key because most of the mintage was melted, so most surviving specimens never entered circulation. This is also true of the 1920-S and 1930-S.

The \$10 Indian is a very popular type coin, and a popular series as well, although less so than the \$2.50 and \$5 Indian series. It is longer, more expensive, and contains more high-priced keys, at least one of which is considered by most a classic American rarity — the 1933 \$10. With enough time and means, however, the set can be completed. It is interesting to note that the common portion of XF, AU, and low-end MS sets can be completed at the most reasonable price levels in a number of years. Several years ago, demand from the Orient for jewelry pushed the price of common date XF's and AU's past the \$400 mark. Now that this demand has abated, they can be had for about \$250 or so. I consider the following to be current values in the series:

- 1907 Wire Edge, MS63 (population: 67, 218 better). Much rarer than the 1907 \$20 High Relief, but not much pricier, and certainly distinctive-looking, like the High Relief. With a bid of \$12,750, it appears to be a bargain. It would cost a lot more if it were a \$20 Saint Gaudens.

- 1907 Rolled Edge, MS63 and MS64 (population: MS63, 2; MS64, 10; and 34 better). Much, much rarer than the 1907 \$20 High Relief, but with a bid of \$28,850 in MS63 (and \$52,000 in MS64), it's only about three times more expensive. This, too, is a very distinctive looking coin, and quite attractive. It should cost a whole lot more.

- 1908-D No Motto, MS60 (population: 32, 278 better). Bid at \$550 in MS60, but \$4,400 in MS63 — and it's anything but easy to locate in MS60 or MS61.
- 1908-S, MS60 (population: 14, 189 better). This is a date that's not easy to find, but it seems to linger in inventory. MS60's bid for only \$1,150, and no one seems to care — for now. More MS65 and better pieces exist than would be expected for this date.
- 1910-S, MS64 (population: 19, 6 better). Generally an attractive green-gold in Mint State, and even more attractive in MS64 with a bid of \$8,250 when MS65's are bid at \$45,000. This date can be extremely difficult to locate in this grade due to the very small number of pieces certified.
- 1911-D, MS63 (population: 28, 15 better). Try to find one! This really is a key in all grades that is simply overshadowed by more spectacular rarities in the series. Bid at \$9,600 in MS63, but at a stratospheric \$52,000 in MS64, a nice MS63 looks like a good deal. I also like MS60's at a bid of \$2,800. And, with XF/AU bid at a paltry \$600, I've sold a number of low-end coins to collectors who wanted a more interesting date for type, especially when common dates were \$400+.
- 1913-S, MS63 (population: 16, 17 better). A very appealing coin in this grade, and not that much scarcer in MS64. Why, then, should MS63 bid be just \$9,900, but MS64 bid be \$35,000? A nice MS63 doesn't look all that much different from a low-end MS64.
- 1915-S, MS60 (population: MS60, 7; MS61, 14; MS62, 33; MS63, 15; and 25 better). This date can be very hard to locate in Mint State. A nice MS60 or MS61 looks like a good bet with MS60 bid at \$2,250 and MS63 bid at \$6,800, provided you can find one.
- 1920-S, AU50 or AU53 (population: AU50, 5; AU53, 3; 56 better). With XF/AU bid at \$6,000, I've found these occasionally available in the \$6,500-\$7,000 range wholesale, which seems to be a bargain considering the coin's rarity. Get some more serious date collectors of \$10 Indians, and there won't be enough of this date to go around.
- 1930-S, MS64 (population: 51, 28 better). Why buy a virtually nonexistent MS60 with bid at \$6,900 or an MS63 with bid at \$9,000 when an MS64 is bid for only \$12,000? Most survivors were nice Mint State coins, which accounts for the relatively small price spread between grades. See my comment about date collectors for the 1920-S.

# Join Superior Galleries for Another Extraordinary Event

We are currently accepting consignments for our  
October 1-4, 2000 Pre-Long Beach Sale of U.S. Coinage

Superior Galleries offers you quality, service, and confidence in presenting your collection for auction. Consign today to our October sale and enjoy:

## RECORD-BREAKING SALES

Superior Galleries holds the record for the highest grossing winter ANA auction in the last 10 years.

## COMPETITIVE COMMISSIONS

We offer highly competitive commissions. Call us for details.

## QUALITY PHOTOGRAPHY

Our staff of skilled photographers utilize state-of-the-art technology to photograph your coins in their most captivating form.

## AWARD-WINNING CATALOGUES

As a consignor, your collection will automatically be featured in our fully-illustrated auction catalogue. Our catalogues have been recognized by the Numismatic Literary Guild and awarded prestigious honors such as *Catalogue of the Year* in 1999.

## EASY SHIPPING

Our experienced numismatists will travel, at our own expense, to receive your collection. If you prefer, we will arrange to ship your coins directly to our Beverly Hills offices *at absolutely no cost to you*.

## GENEROUS CASH ADVANCES

Superior Galleries is a licensed lender by the State of California. We offer extremely generous cash advances. Call us for details.

## TRADITIONAL & INTERNET MARKETING

Your collection will be marketed to an international audience of buyers and collectors through our targeted print and internet advertising campaign, including direct mail, trade publications, and our catalogue available in both print and online 24 hours a day, 7 days a week.

# UNITED STATES RARE COINAGE

## A Selection of New Purchases

### LINCOLN CENT

**1955 1C DBLD DIE RD PCGS MS65 PQ.** Full mint brilliance casts an impressive glow of sunset-rose iridescence. Superb, premium quality surfaces. This Lincoln Cent is the most famous and desirable of all doubled die coinage. Although mintage is estimated to be around 20,000, the circumstances surrounding its release to the public resulted in a lapse of time before the error was discovered by numismatists, resulting in few escaping circulation. Today, "red" Mint State examples are extremely rare, with PCGS and NGC combined grading only a few at this level. None have been certified higher. Our exceptionally bright, fresh Gem example is certainly a candidate for the finest known. . . . . \$26,500

### STANDING LIBERTY QUARTER

**1927-S 25C FH PCGS MS64 W.** Full head, and as such, very rare. Far and away the rarest Standing Liberty Quarter with the coveted full head designation. Full mint frost accents beautiful, nearly flawless surfaces. PCGS has graded only around a half dozen at this level, and even fewer at higher levels. While not classified at the Gem level, this coin certainly has eye appeal of a higher grade. . . . . \$59,500

### HALF DOLLARS

**1836 50C REED EDGE NGC AU58 AT.** Attractive light smoky gray and rose toning, with a touch of sky blue at the peripheries and around some of the devices. Pleasing surfaces. Just 1,200 were struck. . . . . \$4,200

**1906-O 50C NGC MS65 W.** Frosty and fully struck. Superb satin-like fields. One of the scarcer Mint State issues of the series. . . . . \$4,850

**1921 50C PCGS MS64 W.** Gleaming mint lustre has acquired a hint of pale gold-rose iridescence. Surface marks are trivial, offering the appearance of a higher grade. Very "high end" for the assigned grade. . . . . \$4,900

**1936 50C NGC PF67 AT.** Rainbow toned around the peripheries, with lustrous white centers. Immaculate surfaces. . . . . \$6,750

### SEATED DOLLARS

**1861 S\$1 NGC MS65 T.** Uniformly toned in an eye catching combination of violet, rose and smoky gray at the centers blending with champagne gold and sky blue at the rims. Absolutely outstanding in every way. Here is a great condition rarity within the classic Liberty Seated Silver Dollar series. NGC places this lone example at the "65" classification, while PCGS has graded a mere five at this level. None have graded higher. Worthy of inclusion into the finest possible collection of Civil War era coinage. . . . . \$17,500

**KEY:** AT=Attractively Toned, BT=Beautifully Toned, C=Carved, D=Dark, L=Light Toned, RD=Red, RB=Red Brown, T=Toned, W=White

### TERMS OF SALE

- 10-Day unconditional return privilege on purchases from this coin list.
- Orders over \$1000 shipped prepaid. Otherwise, add \$10 postage.
- Coin may be sent on approval to creditworthy customers.
- We accept VISA, MasterCard and American Express.
- Payment available. Call for terms and details.
- We will be happy to accept coins in trade. Offer us what you have.
- All coins are 100% guaranteed genuine.
- California residents add 2.5% Sales Tax for orders under \$100.

### MORGAN DOLLARS

**1889-CC S\$1 NGC MS62 DMPL.** Fields are deeply reflective, showing no serious contact marks or hairlines. Fully struck devices stand out in heavily frosted relief. The "89-CC" is a classic rarity within the Morgan dollar series and prooflike examples are especially coveted. Fewer than 80 have been graded by NGC, and only around 18 achieve this classification. This flashy coin is an excellent value considering the immense cost of higher Mint State grades. . . . \$13,500

**1892-S S\$1 ICG MS62 L.** Well struck. Soft, slightly subdued mint frost. Surfaces possess few detracting marks or hairlines, with Liberty's cheek being especially clean. This issue is known as a major rarity in Mint State, with existing quantities being nearly equal to that of the famous "93-S," although it is valued much less. . . . . \$26,500

### \$1 GOLD

**1855 G\$1 PCGS MS63.** A far above average example of this very scarce type coin. Nice strike for this coin, with frosty luster. Nearly pristine, except for small contact mark on cheek. . . . . \$14,750

**1856-S G\$1 NGC MS61.** Sharply struck. Lovely surfaces are deeply frosted, possessing a glimmer of pleasant rose tone. Strong magnification reveals no detracting marks or significant hairlines. It has wonderful eye appeal. This San Francisco Mint issue represents the final Type II gold dollar, with a mintage of just 24,600 pieces. Mint State examples are quite rare. . . . . \$8,950

### EARLY \$2 1/2 GOLD

**1832 \$2 1/2 NGC AU58.** Both sides show a touch of sunset toning. Well struck and attractive. The "reduced size" Quarter Eagles struck from 1829 to 1834 were all produced in low quantities, and today are coveted representatives of the Capped Head left type. Seldom encountered. Ex Byron Reed collection. . . . . \$8,250

**1840-C \$2 1/2 NGC MS61.** Fully struck and lustrous. Smooth, attractive fields are somewhat semi-prooflike. Even under close scrutiny, the combined strike quality and remarkably problem-free surfaces offer the appearance of a much higher grade. This early Charlotte Mint quarter eagle is a great rarity in Mint State. NGC has graded only this coin at the "61" level, and a single example one point higher. Worthy of the finest collection. . . . . \$17,500

### \$3 GOLD

**1859 \$3 PCGS MS63.** Matte satiny luster. Minuscule mintage of 6,391 with repunched 9. Breen indicates "Usually VF to EF, very rare in AU or better." Well, this coin is much better. . . . . \$5,750

### EARLY \$5 GOLD

**1838-C \$5 PCGS AU50.** Moderately worn, without serious contact marks. A hint of former prooflike fields glimmer beneath modest rubbing. It is an extremely attractive example. This issue represents the first year of Charlotte Mint coinage. Our coin is the Normal 5 variety, characterized further by a large, nearly straight reverse die crack extending diagonally from the rim at 2 o'clock to 7 o'clock. It is the rarer of two varieties, accounting for just 6,220 of a total mintage reported to be 17,179 pieces. One of the finest few known to exist. Ex Harry Bass Jr. collection. . . . . \$13,500

### \$10 LIBERTY GOLD

**1879-O \$10 PCGS AU50.** Lustrous fields show a touch of rose toning. Contact marks are trivial. This impressive coin is a great rarity within the Liberty Head Eagle series. Mintage was a scant 1,500 pieces. Today, About Uncirculated examples are very rare, and a single MS61 coin exists, combining both PCGS and NGC submissions. The popularity of rare date gold coinage is at an all-time high, with high grade coins being especially in demand. A quick phone call is suggested to reserve this treasure. . . . . \$9,960

### \$20 SAINT-GAUDENS

**1901 \$20 PCGS MS65.** Soft mint frost. Tinges of rose, sunset, and light golden color provide a wonderful appearance and highlight especially attractive surfaces. Highly recommended for type, with additional appeal as a lower mintage date. . . . . \$3,200

**1908-D \$20 NO MOTTO NGC MS65.** Sharply struck and remarkably attractive. Fields are smooth and satin-like, and remain virtually flawless. Mint luster has acquired a pale rose iridescent glow. Rare in Gem quality, as NGC has graded a mere 21 at this level, and two higher. . . . . \$10,250

**1910 \$20 NGC MS65.** Bold, flashy mint brilliance. Superb surfaces. This underrated date is one of the more elusive of the series in Gem quality. Here is a wonderful opportunity to acquire both beauty and value. . . . . \$6,150

### COMMEMORATIVE SILVER

**GRANT 50C STAR NGC MS63 L.** Pleasing mint luster emits a light rose-lavender tone. . . . . \$1,450

**OREGON 50C 1939 NGC MS67 3 PC. SET.** Here is an utterly breathtaking original set of 1939-P, D and S Oregon commemorative half dollars. Each matching coin has deep, bold white mint frost blending with a mere touch of rose-golden toning. All are virtual perfection. This trio represents the final year of the issue. Mintage was just 3,004 complete sets, of which few could match our offering. . . . . \$3,500

### U.S. PATTERNS

**1838 P50C J-73RES NGC PF63 AT.** P-77. Struck in silver. Reeded edge (Rarity-5). Restrike, made after February 21, 1853 and struck from a broken reverse die. 360 degree die alignment. Meticulously struck, with lovely golden toning over deeply reflective fields. Liberty facing left, executed by William Kneass, and the Flying Eagle reverse by Christian Gobrecht are considered to be among the most beautiful early designs, but were never implemented for regular issue. . . . . \$5,500

**1866 \$2 1/2 J-542 PCGS PR66.** P-607. Struck in nickel. Reeded edge (Rarity-7). Immaculate bright white surfaces. This trial strike utilized the regular obverse and reverse dies. In a three-way tie for finest known status. No other Quarter Eagle Patterns were struck in 1866. . . . . \$9,500

**1869 S\$1 J-764 PCGS P.** P-849. Struck in aluminum. Reeded edge (Rarity-7). Deeply reflective fields accent sharply contrasting frosted devices. Lovely surfaces and color. Struck using the regular dies of 1869, and tied with a few others as the finest known. . . . . \$8,750

**1876 S\$1 J-1460 BN PCGS PR65.** P-1610. Struck in copper. Reeded edge (Rarity-7). Evenly toned a beautiful shade of reddish brown. Outstanding visual appeal. Miss Liberty's features are similar to William Barber's so-called "sailor's head" of 1875, without the collar which labeled the earlier issue. She faces left in a plain field, wearing a diadem inscribed with LIBERTY, IN GOD WE TRUST in small letters below her. A laurel wreath reverse has the denomination within, E PLURIBUS UNUM below. Unique as a "65," with a single PCGS "red and brown" coin grading much lower. NGC has yet to grade an example. It is a great centennial year Pattern rarity. . . . . \$17,000

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the 5-mint issues) are worth more than listed prices. M5-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

for over a quarter of a century, collectors needing confidential direction and reliable advice have successfully turned to

## Julian M. Leidman

Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the formation of your collection; with more than 30 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with *confidential advice*, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your *personal representative* for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the *orderly disposition* of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can *appraise* your collection or individual pieces. You know your needs best; contact me for *expert* assistance.

### Don't Overlook Overdates

by Bradley S. Karoleff, NLG

The manufacture of working dies was an expensive and arduous task for the workers at the early US Mint. They were not going to discard a perfectly good die simply because it happened to have the previous year's date stamped into its surface. The expedient solution to that problem was to punch the correct numeral over the offending one—usually just the last digit. This created some of the most interesting, and rare, collectibles in the Capped Bust Half Dollar series.

Overdates have always held a special fascination for me. The obvious "mistake," to a beginning collector, made me wonder how the Mint allowed them to be released. Only after studying the series more in-depth, with a better understanding of the workings in the early Mint, did I understand why they were issued. During my formative years of collecting Bust Halves, I always strived to acquire the Overdates. My hope was to someday complete the "overdate collection" of halves. This would be almost impossible as it would include the ultra rare 1817/14. A young collector could always dream!

An analysis of the individual overdates available in the Capped Bust Half Dollar series follows. The projected mintage figure (PMF) is calculated by taking the reported mintage figure for the date and dividing it by the number of die marriages (for more information on individual varieties, see *Early Half Dollar Die Varieties* by Al Overton) known for the year, then multiplying the figure by the number of overdate varieties known for that year. This formula was set forth by Edgar Souders in *Bust Half Fever*, Money Tree Press, 1995, page 247. This figure is *not* meant to suggest that this is the actual mintage figure for the overdate, but a possible figure based on mathematical assumptions. Many variables will come into play such as early die deterioration and random retirement of the dies by the Mint.

Many of the Capped Bust Halves have had their surfaces altered over the years by overzealous numismatists attempting to improve the look of their coins. This makes the availability of coins with original surfaces very limited. Choice original coins routinely bring significant premiums over the listed prices regardless of the date or variety. One needs only to check the prices realized listings of some recent auctions to see the prices paid for choice Halves. The bid prices listed in the *CDN Quarterly II* are for coins in average condition and the lowest numerical designation (i.e.: VF20, not VF30) for the grade. There is a wide range of wholesale and retail prices between VF20 and VF35 and between average and choice coins of the same grade.

**1808/7:** PMF 136,860. Only one variety is known for this overdate. This is not only the first overdate for the series, but the only overdate

of the first design Type (Small Eagle reverse) of the Capped Bust Series. This overdate is easily recognizable, even without magnification. While this overdate is relatively available, it is difficult to obtain in higher grades with original surfaces.

**1811/10**, also called the Punctuated Date variety. PMF 185,176. There are two die varieties known for this overdate. This overdate ranges from very noticeable to almost impossible to distinguish. The obverse die was lapped (ground down) extensively to remove evidence of the overdating procedure. Mostly available in lower grades, this variety is often times found cleaned. Choice original pieces are very difficult to obtain.

**1812** offers the next set of overdates for the series. There are two distinctly different **1812/11** overdated dies. The first is the Small 8 variety, the other is the rare Large 8 variety. PMF for the two overdates is 325,612 as determined by the formula. I believe this to be an overstatement as the Large 8 variety is from a badly fractured die, and most likely was retired early, thus explaining its rarity. The Small 8 variety is easily identified as it is the only die from 1812 with the

Small 8. It is relatively available in almost any grade, but is scarce with original surfaces. The Large 8 variety is the second most difficult overdate in the series to obtain. They are rarely found above VF and bring significant premiums in all grades. Do not expect to find one any better than VF more than once or twice a decade.

**1814/13** is the next overdate in the series. It is also one of the most prominent overdates. The underdigit 3 is very noticeable at the top of the 4. You will not need magnification to see this overdate. You should be able to find one of these without much difficulty into the VF grades. Upper end VF's and better are difficult. As with most other halves, it is hard to find coins with original surfaces.

All the **1815's** are Overdates as the only dies used that year were made from an 1812 die with the 5 punched over the 2. As this date is rare in all grades and

there are no "regular dates" for the year, the current price lists accurately reflect the costs for this coin. "The Redbook" lists the mintage for the 1815 year to be 47,150 pieces.

**1817** is one of the most interesting years for the entire series. It has not only the rarest overdate of the series, but also the most noticeable. The **1817/13** is the most prominent of the Overdates with the 3 clearly showing under the 7. This overdate will jump out at you from across the room! The 17/13 is one of the scarcer Overdates in the series. The PMF is 93,505, but again I believe the actual mintage to be less based on the current availability (or lack thereof) for this particular coin. Expect to search long and hard for an original nicely struck coin, especially in the higher grades.

The second overdate for the year 1817 is one of the rarest United States coins — the famous **1817/14**. There are currently only 7 pieces known. The rarity of this overdate is confirmed by the fact that it was not identified to the collecting community until publication of a verbal description in *The Numismatist* in October 1930. The first pricing guide to list the coin was *Raymond's Standard Catalog* of 1953. Expect to pay

CIRCULATION & BETTY MORRIS  
ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

6 figures for one if you can find it for sale. The Eliasburg coin was a XF45 and sold in 1997 for \$209,000! The next year a Fine 12 sold for \$90,860. Die variety specialists are ever hopeful of finding a new unattributed example.

There are 3 varieties currently known for the 1818/17 overdate. Two have Large 8's in the date and one has Small 8's. Neither is more rare than the other. The under digit is very noticeable on the Large 8 varieties and somewhat less on the Small 8 variety. The PMF for the 3 varieties is a hefty 392,064. Again, as with all of the mintage figures, this is just an estimate based on the total number of coins delivered by the Mint in a particular year divided by the number of varieties known for that same year. This is, however, one of the more common Capped Bust Overdates.

1819 has the greatest number of overdated dies found in any single year. There are 6 different marriages with one having a Small 9 in the date and 5 with the Large 9. Both size nines are easy to obtain as the single Small 9 die was used extensively in production. The evidence of the overdate is noticeable only where the ball of the nine comes in close contact with the loop of the digit. Many collectors require a glass to see the overdate. With 6 varieties known for this overdate, the PMF is a whopping 883,200 coins. With careful searching you will be able to locate nice coins in the F to VF range, choice XF coins continue to be elusive.

1820 began the new decade with some interesting overdates. There are both Curl Base and Square Base 2's over the previous date of 1819. The Curl Base 2 overdate clearly shows the loop of the 9 inside the 0. Both varieties are common, as 1820's go, and do not command a premium. Remember that 1820 itself is a scarcer year and is more costly than the other dates. With two different varieties in this year, the PMF total is 187,780. The overdates are available for a very small premium over the non overdated coins in all grades.

Many references will list an 1822/21 overdate, but current research has shown that it is not actually an overdated die. Most specialists **no longer** collect it as part of the overdate set. The difference between the so called overdated die and the regular dies of this year is a thicker bottom to the second 2 in the date. An Overton variety book is needed to confirm the variety, as the visual difference from a "regular" date in this year is minimal.

1824 follows with one of the most interesting overdates in the whole United States series. Besides the two varieties of the 1824/1 (one of which is Very Rare), there is the 1824/2/0. Yes, a triple overdated die! Let's tackle the 24/1 varieties first: with two marriages listed, the PMF is 412,347; however, with the extreme rarity of one variety, I feel the actual figure is much less. On a side note, this overdate is extremely hard to see and requires the use of an Overton

book to verify the attribution. **Beware** of 1824's with the final 4 recut over another 4 being offered as the scarcer 24/1 overdate. If the overdate seems clear, it is the 4/4 type. The 24/1 Overdates are scarce, especially over the grade of VF. Due to the indistinct underdigit, knowledgeable collectors can often obtain them at regular 1824 prices. Again, as with most of the halves, the upper grade coins with original surfaces are extremely difficult to obtain.

The unusual 1824/2/0 overdate, also known as 1824 over various dates, is very easy to see. The final digit of the date is a jumbled mess of numerals. To me it is one of the most interesting Overdates in the entire US series. This overdate is not rare and is easy to find in the grades up to XF. If you only buy one overdate in this series, consider either this one or the 1817/13. The PMF for the 1824/2/0 is 206,173.

The next overdated year is 1827/6. There are three different varieties known for this overdate. The same

obverse was mated with 3 different reverses combining for a total PMF of 350,642. Again, this is a relatively common overdate in the series. The underdigit becomes harder to see with each use of the die due to wear. Again, the price difference from a non overdate 1827 is small below the XF grade.

The 1829/7 overdate is more difficult to see than many of this era with only the bottom tip of the 7 visible under the 9. There are two varieties using the same obverse die giving us a PMF of 390,753 for the year.

Years ago this overdate was mistakenly referred to as 29/21 in some guides. Again, the premiums for the Overdates are small for this issue.

That concludes the "official Overdates" for the Capped Bust Series of Half Dollars. I would like to point out that there is one more coin many specialists consider part of the overdate set — the 1836/1336. The engraver

at the Mint mistakenly punched the 3 into the die in the 8 slot and later had to correct his mistake. The ball of the 3 is clearly visible inside the lower loop of the 8. You will probably need a magnifier to confirm the attribution. The PMF for this unusual variety is 284,565. As it is an "unlisted Overdate," you will be able to locate one for the Type coin price.

The next time you have to take a second look at that Capped Bust Half Dollar to actually determine the date, don't overlook the possibility that it could open a new collecting avenue for you.

# UNITED STATES RARE COINAGE

## A Selection of New Purchases

### EARLY AMERICAN COINAGE

**1776 \$1 EG FECIT PCGS AU58 CONTINENTAL \$1.** Newman 3-D. Struck in pewter using the CURRENCY obverse. Attractively toned in shades of smoky gray. The planchet is smooth and problem-free. On the reverse, all links at the right are connected by a rather large die break, as usually seen on this issue. Our example represents the EG FECIT variety, designating the initials of the coin's maker Elisha Gallaudet. This is the first truly American coin. The chain links circling the reverse are inscribed with the names of the 13 original colonies, and at the center is noted AMERICAN COLONIES-WE ARE ONE within a single circular link. It is certainly the most impressive appearing early American coin, and of massive historical importance. . . . \$24,000

### LARGE CENT

**1793 WREATH 1C VINE/BARS PCGS VF30** Sheldon-6. This die variety is characterized by a small date and a small, heavy bow utilizing Obverse 7 and Reverse F. A dark greenish brown planchet is remarkably smooth, with traces of verdigris clinging to the devices, most apparent on the reverse. A few ancient, barely noticeable scratches cross Liberty's face and hair, but do not detract. This famous first year of issue United States coin is enthusiastically sought by both Large Cent collectors and type collectors. . . . \$5,150

### LINCOLN CENTS

**1914-D 1C NGC MS66 RB.** The obverse is worthy of "full red" status, or nearly so, showing much mint brilliance mixing with a rose-sunset iridescent glow. Reverse toning is mostly medium brown and violet, revealing only a trace of mint red. This outstanding "14-D" cent ranks among the finest few extant, possessing no marks and an absolute minimum of microscopic flecks. NGC has graded just two at this lofty level, designated red and brown, and none higher. Demand for finest known calibre small cents is at an all-time high, with record prices being set with every auction appearance. Once this outstanding coin is sold, it may be years before its equal will be obtainable. . . \$9,850

### TERMS OF SALE

**1955 1C DBLD DIE PCGS MS64 RB.** Much mint red mixes with pleasing light brown coloration. Very attractive. The date and lettering are sharply doubled on the famous error Lincoln Cent, providing a spectacular appearance. . . . \$3,250

### BUST DIME

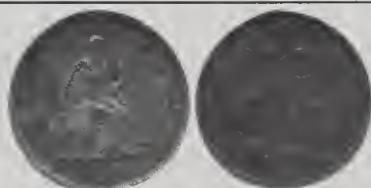

**1831 10C PCGS MS66 W.** John Reich-1. A common die variety, but in absolutely superb condition. . . . \$8500

### SEATED DIMES

**1837 10C NO STARS PCGS MS62 L/PQ.** Large date. The strike is razor-sharp. Mint frost is accented by splashes of pleasing deep sunset and sea green toning, mostly at the peripheries. This classic two-year only No Stars dime has wonderful eye appeal. Perfect for type. . . . \$1,200

**1863 10C PCGS AU58 L.** Lustrous and attractive, showing hint of light multicolored peripheral toning. It is one of the few surviving examples of a mere 14,000 business strikes. . . . \$875

### TWENTY-CENT PIECES

**1877 20C NGC PF66 AT.** Deeply reflective fields possess swirls of light golden, lavender and blue-violet iridescence, and show no hairlines or traces of handling. Devices stand out in frosted relief. This Proof-only date has a recorded mintage of just 350, although that number is subject to debate. Other silver denominations of 1877 have a recorded mintage of 510 Proofs and many researchers believe that figure to be accurate for the Twenty-Cent Piece. The frequency of appearance tends to support the higher number. Few exist today in this superlative condition. It is an outstanding example for date or type. . . . \$10,750

**1878 20C ICG PR66 AT.** Fields are deeply reflective and immaculate. Light frosted devices stand out in contrast. The obverse is lustrous at the center, transforming to a eye catching blend of lavender and sky blue at the rim. Uniform lavender-pale gold iridescence graces the reverse. This important Proof-only date is the final twenty-cent piece emission. Just 600 were struck. . . . \$9,250

### STANDING LIBERTY QUARTERS

**1917 25C TYPE 2 FH PCGS MS65 W/PQ.** Full head. Rich, deep mint frost is satin-like and virtually flawless, offering outstanding eye appeal. Perfect for type. . . . \$675

**1919-D 25C NGC MS64 AT.** 80% head detail. Surfaces are satiny and enhanced with impressive golden peripheral toning. Strong magnification reveals only a few trivial, unobtrusive marks. Truly a borderline Gem example. . . . \$1,650

**1923-S 25C FH NGC MS65 L.** Full head and shield rivets. Bold mint frost has taken a beautiful greenish gold iridescent glow. This scarce San Francisco Mint issue is seldom encountered in such outstanding condition, and is sure to attract the attention of the legion of Standing Liberty Quarter specialists. . . \$2,850

### BUST HALVES

**1824 50C OVERDATE NGC MS64 BT.** Overton-101. Well struck. Magnificently toned in a blend of ice blue, champagne gold, rose and sunset, with silvery centers peaking through on both sides. NGC has graded only a few 1824/1 overdates, and our example is the finest certified. The Overton number is not designated on the encapsulation. . . . \$4,250

### SEATED HALVES

**1877-CC 50C PCGS MS65 AT.** Sharply struck, with pleasing sunset toning on both sides. Although evaluated as a type coin, this condition rarity has a single digit PCGS population as a "65," and a single coin grades one notch higher. A great opportunity to acquire a truly rare Carson City Mint Half Dollar. \$3,250

**1879 50C PCGS MS64 W.** Frosty and fully struck. This date represents the first of the popular low mintage Philadelphia Mint halves struck from 1879 to 1890, and it is a lovely borderline Gem example. Just 4,800 business strikes were coined. . . . \$1,050

### BARBER HALVES

**1896-S 50C PCGS MS66 AT.** Deeply toned at the peripheries, accenting rich golden lustrous centers. This marvelous coin is one of four graded at this level by PCGS, and none grade higher. . . . \$13,500

**1899-S 50C PCGS MS64 W.** Frosty white surfaces. Fully struck. If not for a small mark on Liberty's neck and jaw, this coin would be a premium quality, high end Gem. . . . \$3,500

### WALKING LIBERTY HALVES

**1917-D 50C REVERSE PCGS MS63 W/PQ.** Bright silvery mint lustre. Well struck for the issue. This premium quality coin has minimal surface blemishes. It would fit handsomely into a specialized collection consisting replete with higher grade coins. . . . \$1,900

**1918-D 50C PCGS MS63 W/PQ.** Frosty, satiny-like surfaces are nearly mark-free. Better struck than most, showing a full thumb and considerable head and skirtline detail. It is a gorgeous, premium quality example, and quite rare this nice. . . . \$1,950

**1918-S 50C PCGS MS65 W.** Well struck. Full mint brilliance highlights immaculate, nearly flawless surfaces. Although not a particularly rare issue in circulated and low end Mint State grades, in Gem condition it is one of the rarities of this extremely popular series. Our example certainly ranks among the finest few extant. . . . \$14,000

**KEY:** AT=Attractively Toned; BT=Beautifully Toned; C=Cameo; D=Dark; L=Light Toned; RD=Red, RB=Red Brown, T=Toned, W=White

**1921-S 50C PCGS MS64 W.** A uniform pale golden glow over original mint frost provides a wonderful appearance. Surfaces show no significant marks, merely a few tiny ticks and a small patch of mint-caused roughness in the right obverse field, above IN GOD WE TRUST. It is truly a memorable example of this classic Liberty Walking Half Dollar rarity. Breen reported in the 1980's, that all Mint State survivors of this issue were "possibly from the single roll, mostly weak strikes." Recent population reports reveal that a few rolls survived in Mint State, although they are at a premium, with current demand far exceeding the supply. Our example is far better struck than most and worthy of special consideration, as such. . . . \$28,000

### SEATED DOLLARS

**1855 \$S1 NGC AU55 L.** Natural toning is a blend of smoky gray and pale rose. It is well struck, and the surfaces are remarkably free of blemishes. This date is among the more elusive of the Liberty Seated Dollar series, particularly in higher grade. An outstanding value. . . . \$3,950

**1872-CC \$S1 PCGS AU53 L.** Lustrous, bright white surfaces. Contact marks are light, with none standing out as detracting to the visual appeal of this important Carson City Mint rarity. Just 3,150 pieces were struck, and they circulated extensive in the old West. Today, examples at this grade level, and higher, are in great demand. A phone call at 1-800-421-0754 is suggested to secure this treasure. . . \$9,500

### MORGAN DOLLARS

**1880-S \$S1 NGC MS68 W.** Fully struck. Cold mint frost. Fields are semi-prooflike and flawless, offering "cartwheel effect" mint brilliance. Devices provide lightly frosted contrast. Ultimate Gem "68" Morgan dollars are seldom encountered. . . . \$2,500

**1889-CC \$S1 NGC MS62 W.** Glittering white mint lustre. Sharply struck. Contact marks are minimal on this borderline Choice example. The "89-CC" has long been recognized as one of the rarest and most desirable issues of the series. . . . \$11,000

**1894 \$S1 PCGS MS63 W.** Pleasing mint frost. Contact marks are minimal. Very scarce in Choice condition. . . . \$3,600

**1901 \$S1 NGC MS63 W/PQ.** Vibrant mint lustre has a touch of golden peripheral color, placing the visual appeal of this coin far, far above that of the normally encountered dull, lackluster Mint State coins. The strike is also unusually bold, with rounded breast feathers and nearly full hair strands above Miss Liberty's ear. Truly a premium quality example worthy of inclusion in a world-class collection. . . \$11,000

### PEACE DOLLARS

**1922 \$S1 MATTE PCGS PR64.** High relief. Type of 1921. Meticulously struck, with uniform light gray Matte-finish surfaces. Minute dark specks on both sides do not detract, but serve to accent the smooth, virtually flawless fields and devices. Matte Proofs dated 1922 are very rare. A grand total of six pieces have been encapsulated by PCGS and NGC combined, and our specimen is tied with one other as the second finest graded by PCGS. . . . \$45,000

**1924-S \$S1 NGC MS65 L.** Superb surfaces highlight this impressive Peace Dollar. Both sides show a hint of golden color over pure mint frost. NGC and PCGS have each graded around 50 as "65," and very few higher. This coin deserves appreciation as one of the finest at this grade level. . . . \$6,150

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# The PCI Capsule...

- ✓ \$8<sup>00</sup> PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people  
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8<sup>00</sup> per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

**A**fter our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

## OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

### R.M. SMYTHE

[www.Numismatists.com/rmsmythe](http://www.Numismatists.com/rmsmythe)

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

### THE TIME MACHINE

[www.Numismatists.com/timemachine](http://www.Numismatists.com/timemachine)

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgud Bassili

### DAVID C. ALBANESE

[www.Numismatists.com/albanese](http://www.Numismatists.com/albanese)

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

### JAKE'S MARKET PLACE, INC.

[www.Numismatists.com/jakesmarketplace](http://www.Numismatists.com/jakesmarketplace)

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

Single copy price: \$4.00

### Collecting U. S. Half Cents by Date or Major Variety

by James R. McGuigan

It has been 19 years since the last analysis of U. S. Half Cents in the *Coin Dealer Newsletter* (see "Half Cent Analysis" by Jack Beymer, *CDN Monthly Summary*, November 1981). Since then there have been two major books published on the series, namely Roger S. Cohen, *American Half Cents*, 2<sup>nd</sup> Edition, 1982 and Walter Breen, *Encyclopedia of United States Half Cents*, 1983, which provided updated rarity and condition census information on the various die varieties. Additionally, a number of significant old-time collections of Half Cents, such as those belonging to Loye L. Lauder (William Doyle Galleries, 1983), Mrs. R. Henry Norweb (Bowers & Merena, 1987), James A. Stack (Stack's, 1989), Roger S. Cohen (Superior, 1992), and Louis E. Eliasberg (Bowers & Merena, 1996) have been dispersed. Finally, the establishment of third-party grading services (e. g., ANACS, ICG, SEGS, NGC, and PCGS) and significantly higher prices for high quality coins have brought a lot of high-grade Half Cents into the marketplace. These events have generated a lot of new information that can be used in updating Jack Beymer's 1981 *CDN* article on Half Cents.

The discussion will focus on the availability of high grade (i. e., condition census) examples of each of the business strike dates and major varieties listed in the "Redbook" (R. S. Yeoman, *A Guidebook of United States Coins*, 52<sup>nd</sup> Edition), excluding the proofs, which were examined in my October 1997 *CDN Monthly Supplement* article.

#### Sources of Pricing Information

In his 1981 *CDN* article, Jack Beymer provided relative pricing information (i. e., basal values) for the various major Half Cent varieties. Since the *CDN Quarterly I* now provides pricing information for most of the major Half Cent varieties, the analysis here will not attempt to estimate prices for condition census specimens. However, collectors should be aware that condition census examples of many Half Cent dates and major varieties, particularly ones that are extremely rare or ones with choice color and surfaces, often trade at significantly higher prices than those listed in the *CDN Quarterly I*. For example, a specimen of the extremely rare 1797 Gripped Edge variety in VG condition sold for \$36,000 at a recent auction, which was almost 4 times the \$9,500 price listed in the *CDN Quarterly I* at the time!

Another very useful source of pricing and condition census information on the various Half Cent die varieties is *Copper Quotes by Robinson* (i. e., *CQR*), which is published by Jack Robinson. Also, prices realized at major public auctions conducted by such firms as Bowers & Merena, Heritage, Stack's, Superior, and Ira & Larry Goldberg serve as useful pricing guides.

#### Condition and Grading

We are all familiar with the controversial nature of coin grading. Despite the development of a supposedly objective quantitative grading scale (i. e., 1 to 70) by Dr. Sheldon, the publication of various "how to" books on grading, and the establishment of a number of third-party grading services, grading is still inherently subjective.

Knowledgeable collectors, dealers, and independent third-party grading services frequently disagree about the grade of a given coin. Compounding the subjective nature of grading is the issue of ownership bias, i. e., the often heard refrain that "ownership adds five points to the grade of a coin."

The grading standards employed by author/researchers, such as Cohen and Breen, differ from the "commercial" standards that exist in the marketplace. The condition census information contained in the Cohen and Breen books cited earlier employ grading standards that generally are stricter than commercial standards, such as those used by the major third-party grading services. For example, I know of two problem-free Liberty Cap Half Cents (1793 and 1794) that are listed in Breen's condition census as EF

but are graded MS62BN and MS63BN respectively by one of the major grading services. Also for coins with defects, such as rim marks, scratches, or environmental damage (e. g., pitting or porosity), net grades tend to be lower for those collectors and dealers who adhere to stricter grading standards compared with those who use commercial standards.

With these comments in mind, the analysis in this article will use *commercial grading standards* in discussing the availability of high grade specimens of each Half Cent date and major variety.

#### Half Cent Condition Census

In the accompanying table on the following page, the "Grade (Estimated Number of Examples)" column shows the condition (i. e., MS, AU, EF, etc.) of the finest half dozen or more examples of each of the Half Cent dates and major varieties. For dates or varieties where dozens or even hundreds of MS examples exist with varying degrees of mint red and impairments (e. g., carbon spots, handling marks, etc.) it is nearly impossible to specify which actual specimens constitute the finest half dozen or so examples. The "Comments" column contains additional information about the availability of condition census examples of each of the dates and major varieties (e. g., gems, mint red specimens, etc.). This condition census is based on the research contained in the Cohen and Breen books cited earlier, the data published in the PCGS and NGC population reports, and my experience in collecting and dealing in the series.

Also shown in the table are the total number of MS (MS60 or better) and gem MS (MS65 or better) examples graded by PCGS and NGC. The reader should keep in mind that these numbers include "crack outs," i. e., coins which are broken out of their holders and resubmitted to the grading services. Therefore, the actual number of different coins may be somewhat less than the totals listed in the table.

Examination of the information in the table reveals the following:

- Relatively large numbers of MS examples exist for certain dates, including 1800, 1804, 1806, 1828, 1833-1835, and 1851-1857. The sizeable number of MS survivors for these dates, particularly specimens with substantial mint red, is due in part to the discovery of various hoards in the late 19<sup>th</sup> and early 20<sup>th</sup> centuries, such as the Chapman (brothers) hoard of 1806's, (Benjamin) Collins find of 1828's, (Elmer) Sears hoard of 1835's, and (Thomas L.) Elder hoard of 1855's.

- With the exception of the hoard dates and varieties, *most early dates (pre-1825) and varieties are very rare in MS condition* (MS60 or better). Excluding 1800, 1804, 1806, and 1809, fewer than 25 mint state examples have been graded for any of the early dates.

- A number of dates and varieties are not even known to exist in MS condition. For example, no MS examples are known for the years 1802 and 1831, nor for the 1797 Lettered Edge and Gripped Edge varieties, nor for the 1805 Small 5, Stems variety.

- Gem MS (MS65 or better) examples are extremely rare for most of the early dates (pre-1825). Fewer than a dozen MS65 or better specimens have been graded by PCGS and NGC for any of the early dates. Even the so-called common dates, such as 1804, 1806, and 1809, are illusive in gem MS condition. Likewise, several of the middle and late dates and varieties, such as 1825, 1826, 1828 12-stars, 1849, and 1850, are very difficult to locate in gem MS condition.

#### Summary

In summary, from PCGS and NGC population report data and condition census information contained in the Cohen and Breen Half Cent books, we see that, with the exception of dates for which hoards are known, most dates and major varieties of Half Cents are very scarce or rare in MS condition. Indeed, some do not exist in MS. Assembling a condition census level quality collection of the 33 dates or 54 major varieties requires both patience and a substantial financial commitment.

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

|------|--------------------------------|------------------|------------------|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| 1793 | 1793                           | 17               | 1                | MS(30-45)                      | Extremely rare in gem condition. None known with significant mint red.                                                      |
| 1794 | 1794                           | 21               | 6                | MS(40-60)                      | Very rare in gem MS. Several examples known with significant mint color.                                                    |
| 1795 | Lettered Edge, With Pole       | 9*               | 1                | MS(20-30)                      | Extremely rare in gem condition. A couple of pieces exhibit some mint red.                                                  |
|      | Lettered Edge, Punctuated Date |                  |                  | MS(8-12)                       | No gems known. None known with significant mint color.                                                                      |
|      | Plain Edge, Punctuated Date    | 6*               | 2                | MS(8-12)                       | Extremely rare with any mint red. Often comes weakly struck in centers.                                                     |
|      | Plain Edge, No Pole            |                  |                  | MS(20-30)                      | Very rare in gem condition. A few examples known with some mint color.                                                      |
| 1796 | With Pole                      | 11               | 5                | MS(10-15)                      | Three recently discovered gem examples from England exhibit significant mint red.                                           |
|      | No Pole                        | 3                | 1                | MS(4), VF(2)                   | One gem quality piece (Eliasberg) known. No XF's or AU's known.                                                             |
| 1797 | Lettered Edge                  | 0                | 0                | EF(1), VF(8-12)                | Extremely rare above VF with no AU or MS specimens known.                                                                   |
|      | Gripped Edge                   | 0                | 0                | VG(3-4), G(3-4)                | About a dozen examples are known and all are low grade (FR-VG).                                                             |
|      | Plain Edge                     | 8*               | 1                | MS(8-12)                       | Extremely rare in gem condition. None known with mint color.                                                                |
|      | 1 Above 1, Plain Edge          |                  |                  | MS(10-15)                      | Extremely rare in gem MS. A couple of pieces known with significant mint red.                                               |
| 1800 | 1800                           | 54               | 0                | MS(100+)                       | MS examples with mint red are available, but do not qualify as gems because of marks or spotting.                           |
| 1802 | 2 Over 0                       | 0                | 0                | VF(2-3), F(2-3)                | Very rare with less than 30 specimens known. Unknown above VF.                                                              |
|      | Reverse of 1800                | 0                | 0                | EF(2-3), VF(8-12)              | While not rare as a date, VF or better specimens are quite scarce. No AU or MS pieces known.                                |
|      | 2 Over 0, Reverse of 1802      |                  |                  |                                |                                                                                                                             |
| 1803 | 1803                           | 13               | 1                | MS(20-30)                      | Very rare in MS and extremely rare in gem condition or with significant mint color.                                         |
| 1804 | Plain 4, Stems                 | 236*             | 11               | MS(4-6), AU(4-6)               | A scarce variety that is extremely rare in MS with no gems or examples exhibiting significant mint red known.               |
|      | Plain 4, Stemless              |                  |                  | MS(200+)                       | A common variety in MS, but extremely rare in gem condition. Several examples known with significant mint color.            |
|      | Crosslet 4, Stems              |                  |                  | MS(30-45)                      | A scarce variety in MS, but extremely rare in gem condition or with significant mint red.                                   |
|      | Crosslet 4, Stemless           |                  |                  | MS(30-45)                      | A scarce variety in MS that is very rare in gem condition. Several examples known with significant mint color.              |
|      | Spiked Chin                    |                  |                  | MS(40-60)                      | A scarce variety in MS that is hard to locate in either gem condition or exhibiting significant mint red.                   |
| 1805 | Small 5, Stems                 | 0                | 0                | EF(2-3), VF(8-12)              | A scarce variety with no AU or MS examples known.                                                                           |
|      | Small 5, Stemless              | 16*              | 1                | MS(30-45)                      | A very rare variety in MS. Very difficult to locate in either gem condition or with mint color.                             |
|      | Large 5, Stems                 |                  |                  | MS(10-15)                      | An extremely rare variety in MS, with only a couple of examples qualifying as gems.                                         |
| 1806 | Small 6, Stems                 | 1                | 0                | MS(4-6), AU(4-6)               | A scarce variety that is extremely rare in MS, with 1 or 2 pieces qualifying as gems.                                       |
|      | Small 6, Stemless              | 245*             | 5                | MS(50-75)                      | MS examples exhibiting significant mint red are available, but few qualify as gems because of marks or carbon spotting.     |
|      | Large 6, Stems                 |                  |                  | MS(400+)                       | MS specimens exhibiting significant mint color are available. Most are spotted or bagmarked and do not qualify as gems.     |
| 1807 | 1807                           | 14               | 0                | MS(30-45)                      | Very rare in MS, with only a few qualifying as gems. Examples with mint red are extremely rare.                             |
| 1808 | 8 Over 7                       | 0                | 0                | MS(1-2), AU(4-6)               | Extremely rare in EF or better condition, with only 1 or possibly 2 qualifying as MS.                                       |
|      | Normal Date                    | 2                | 0                | MS(10-15)                      | Extremely rare in MS, with only 2 or 3 qualifying as gems and an equal number having significant mint color.                |
| 1809 | Normal Date                    | 70*              | 7                | MS(100+)                       | A common variety in MS, but very rare in gem condition or exhibiting significant mint red.                                  |
|      | Circle Inside 0                |                  |                  | MS(4-6), AU(4-6)               | A scarce variety that is extremely rare in MS. Very few gems or examples with mint color known.                             |
|      | 9 Over 6                       |                  |                  | MS(20-30)                      | Very rare in MS. Extremely rare in gem condition or with significant mint color.                                            |
| 1810 | 1810                           | 21               | 0                | MS(30-45)                      | Extremely rare in gem condition or exhibiting significant mint red.                                                         |
| 1811 | 1811                           | 1                | 0                | MS(4-6), AU(8-12)              | Extremely rare in MS. Only 1 or 2 examples known with mint color. Possibly 1 or 2 presentation pieces known.                |
|      | Restrike, 1802 Rev.            | 2                | 1                | MS(8-12)                       | An extremely rare variety with most examples exhibiting some mint red.                                                      |
| 1825 | 1825                           | 67               | 8                | MS(100+)                       | A common date in brown MS, but very difficult to locate in gem condition or exhibiting significant mint color.              |
| 1826 | 1826                           | 94               | 4                | MS(200+)                       | A common date in brown MS, but very illusive in gem condition or with significant mint color.                               |
| 1828 | 13 Stars                       | 572              | 26               | MS(1000+)                      | Numerous examples exist with substantial mint red, but spot-free gem examples are scarce.                                   |
|      | 12 Stars                       | 36               | 2                | MS(50-75)                      | Brown MS examples are available, however specimens with substantial mint color are very rare.                               |
| 1829 | 1829                           | 154              | 31               | MS(300+)                       | Brown MS examples are readily available. Examples with substantial mint red are very Scarce.                                |
| 1831 | Original                       | 0                | 0                | AU(2-3), EF(4-6)               | Very rare date with no MS specimens known.                                                                                  |
| 1832 | 1832                           | 127              | 14               | MS(250+)                       | Brown MS examples are available. Specimens with substantial mint red are very rare.                                         |
| 1833 | 1833                           | 398              | 69               | MS(750+)                       | Numerous examples exist with substantial mint color, however spot-free examples are illusive.                               |
| 1834 | 1834                           | 305              | 36               | MS(500+)                       | Brown MS examples are readily available, but specimens with substantial mint red are scarce.                                |
| 1835 | 1835                           | 711              | 84               | MS(1000+)                      | Examples with substantial mint color are available, but spot-free pieces are scarce.                                        |
| 1849 | Large Date                     | 138              | 6                | MS(250+)                       | Brown MS pieces are available. Very rare in gem condition or exhibiting substantial mint red.                               |
| 1850 | 1850                           | 89               | 3                | MS(200+)                       | Very rare with substantial mint color. Often show roughness inside border beading on obverse and reverse.                   |
| 1851 | 1851                           | 384              | 12               | MS(750+)                       | Examples with substantial mint red are available. Often found weakly struck, although proof-like, well-struck pieces exist. |
| 1853 | 1853                           | 610              | 111              | MS(1000+)                      | Readily available in brown MS. Very scarce with substantial mint color.                                                     |
| 1854 | 1854                           | 522              | 60               | MS(1000+)                      | Examples with substantial mint red are available. Luster is often somewhat subdued on MS specimens.                         |
| 1855 | 1855                           | 1056             | 140              | MS(2000+)                      | Virtually full red examples are plentiful. Usually come weakly struck on border beading, especially on the right side.      |
| 1856 | 1856                           | 263              | 17               | MS(500+)                       | Specimens with substantial mint color are available. Proof-like examples sometimes are offered for sale as proofs.          |
| 1857 | 1857                           | 429              | 13               | MS(1000+)                      | Usually found weakly struck. Virtually full red specimens are very scarce.                                                  |

Source: The PCGS Population Report, December 1999 and NGC Census Report, January 2000.  
\* PCGS did not designate all the major Half Cent varieties on its holders until several years after they began grading coins in 1986. Therefore it is impossible to know how many of the pieces graded for each date represent a given major variety.

# Pre-Long Beach Sale

# BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late '50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full steps" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN

# IF YOU HAVE COINS TO SELL

See us at all  
Major Shows

**YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF CASH IN  
CALIFORNIA AND MOST OF IT IS AT  
SPECTRUM NUMISMATICS!**

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's an 1804 Dollar, or a \$30 common date Morgan Dollar. Spectrum desperately needs to buy all of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been

many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

## **HERE'S WHAT YOU WILL GET FROM THE KING OF CASH**

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to everyone who helps us buy coins. In 1998, Spectrum paid \$3,129,104 in finder's fees and commissions!

## **DO IT FOR THE MONEY!**

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949)955-1250, to get your piece of the action and your share of the cash!

Call collect and tell them you want to talk to the *King of Cash*.

### THE RAGING BU ROLL MARKET IN WASHINGTON QUARTERS

by Dr. Richard S. Appel

The government's new ten year Statehood Washington Quarter Program has engendered the emergence of a full-fledged boom in one of the coin market's most long-forgotten series. This has acted to **vault** Brilliant Uncirculated rolls of Washington Quarters from 1932-1964, to the forefront of the minds of collectors and dealers alike.

Today, they are one of the hottest areas in U.S. numismatics. This is even more significant given the general lackluster state of the rare coin market. Dealers can only transact business and generate income when there is activity in a given area. And, the great strength in the Washington Quarter series is attracting more and more players with each passing month.

BU rolls of Washington Quarters witnessed their last important Bull Market during the heady days of the 1980 gold and silver metal boom. Their enormous price increases during that period were primarily due to their silver content not their numismatic value. The ensuing 20 years witnessed their fall from favor and their accompanying decline in prices. When they finally posted their ultimate lows they had collapsed to levels not seen since the mid-1970's and, in many cases, not since the early 1960's. By the third quarter of 1998, in the estimation of all knowledgeable observers, they had reached a greatly depressed state which left them **enormously** undervalued. Yet no one seemed to care as the occasional desirable offering normally went unsold.

#### THE METAMORPHOSIS OF THE WASHINGTON QUARTER BU ROLL MARKET

This condition slowly began to change, and prices moved higher, in anticipation of the first Statehood Quarter commemorating Delaware, in January 1999. By the release of the New Jersey Quarter in late May, the price appreciation of these rolls gained momentum as a number of different events converged. These events acted to kindle an increased desire for these coins.

First, the U.S. Mint's Washington Statehood Quarter Program blossomed into a far greater success than even the most optimistic observer would have earlier believed possible. Next, the true scarcity of these earlier silver rolls began to become evidenced by the lack of fresh material entering the marketplace.

In November, 1999, a letter by Augustine A. Albino, a former superintendent of the Philadelphia Mint for 37 years, was published by *Coin World*. In his Letter to the Editor, Mr. Albino described a heretofore unknown fact affecting the availability of these coins. He stated that during the late 1960's, our nation's mints secretly collected the silver coins that were returned to them by the Federal Reserve System. During this operation the mints installed sophisticated sorting machines. They used these to separate the still circulating silver quarters, along with other silver coins, from the newly minted clad coinage. They then melted tons and tons of silver coins and sold the recovered silver bullion.

This in and of itself didn't greatly affect the availability of original Uncirculated rolls of the earlier silver coins. However, it reminded many of the late 1979-1980 period. If you recall, it was

during this time-frame that silver skyrocketed in price to \$50 an ounce. This large increase in silver's value attracted long lines of sellers to coin and bullion shops as the public sought to "cash in" and sell their silver artifacts. And, one of the prime items that they sold were massive quantities of silver coins.

Over the years, many dealers recounted to me their personal experiences during that period. These were individuals who were involved in acquiring silver and gold from the public, and therefore had firsthand knowledge. They all had tales of the coins and other items that they bought over the counter at that time. In each instance, they told of vast amounts of Brilliant Uncirculated rolls and bags of Washington Quarters that they were personally responsible for having been thrown into the melting pots.

At that time cash was more critical, to those purchasing from the frenzied dishoarding public, than retaining many scarce rolls of Uncirculated Washington Quarters that they daily acquired. This was due to the fact that they needed the money from the sale of the coins, to continue their buying. Along with tons of common BU rolls many incredibly scarce date rolls in the early 1950's and 1940's, were "burnt" and returned to silver during this era.

Who could resist the lure of selling a \$10 roll of Uncirculated Washington Quarters for their melt value of \$300 or \$350? This, when they were only worth \$50 to \$200 just a few months earlier. Indeed, I was among this group. I myself rifled my safe deposit boxes for these rolls of coins. My only regret, until recently, was not selling all of my rolls at that time. Their prices plummeted shortly thereafter.

Another important condition has contributed to the surprising scarcity and recent price increases of these rolls. A number of large marketing concerns during the past 35 years were responsible for breaking up many of the remaining BU rolls of Washington Quarters. They performed this act in order to sell the individual coins to the public. This event alone further greatly reduced the number of remaining original rolls.

In fact, the presence of an increased number of these companies are an important driving force in today's market. Their sales of individual examples of silver Washington Quarters, due to the renewed interest in the series, has boomed. This has forced them to continually raise their bids in order to satisfy the great demand that they are experiencing.

Finally, the first of a new group of individuals have entered the league of the coin collecting fraternity. They began with the Statehood Commemorative Quarters, and have just begun to complete their sets of the earlier Washington Quarters. Given the 50+ million individuals who have begun to collect the Statehood Quarter Series, who would be surprised if tens of thousands of these newcomers are not ultimately bitten by the coin collecting bug! And, what would be more natural than for them to begin by completing the first series that had piqued their interest; the earlier coins in the Washington Quarter series.

#### FEWER ORIGINAL ROLLS OF WASHINGTON QUARTERS EXIST THAN ARE GENERALLY BELIEVED!

When I aggressively entered the Washington Quarter market in 1998, I was challenged by two of the primary coin dealers who had long been involved in these coins. Independently, they each stated that, "it would be impossible to acquire a large number of original rolls of Washington Quarters". I retorted that higher prices would certainly draw out far more rolls than I could possibly desire. Was I ever wrong! In fact, despite the increased prices that these rolls have

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

The coins listed at left have given their owners the greatest profits during what I believe is only the initial stage of the current Washington Quarter Bull Market. Despite the significant price rises of the coins to the left, I continue to view some as excellent investments. Among the best are the 1948-D, 1950-P, and the 1953-P. In my opinion these coins are far scarcer than their current prices indicate.

Importantly for the investor, a number of the other issues from 1932 to 1964, have only experienced small to moderate price rises to date. This condition has made many of these to my mind, extremely desirable. This is because the marketplace has not yet recognized their true scarcity. When people awaken to this fact I expect that their prices will quickly move higher. Some of the rolls that I presently like best are; 1934-P, 1941-S, 1942-S, 1945-P, 1948-D, 1949-D, 1950-S, and 1951-D.

The general availability of Brilliant Uncirculated rolls of Washington Quarters falls loosely into five categories. The first containing by far the rarest rolls are those minted from 1932-1941. They are followed by the group beginning in 1942 and ending in 1950. The third begins in 1951 and ends with the 1955-P. Next, starts with the 1955-D and continues through the 1962 issues. Finally, are the 1963 and 1964 emissions.

Original BU rolls from the first group are rarely encountered. I have seen fewer than a dozen rolls from this era. The second group of Brilliant Uncirculated rolls from 1942-1950, are all very scarce to very rare. Rolls such as the 1941-D, 1941-S, 1942-D, 1942-S, 1943-D, 1943-S, 1945-D and the 1949-P are extremely elusive. Their rarity compares favorably with many of their earlier counterparts. The rolls from 1951 through 1955-P while more available than the earlier dates, contains some true rarities such as the 1951-S and 1952-S.

Other than the 1963 and 1964 coins, which are far and away the most common, the Washington Quarters from 1955-D through 1962 are those most readily available. In this group the 1956-D, 1957-P,

1961-P and 1962-P are surprisingly scarce and as such are greatly undervalued. These were all considered common and were melted with abandon.

The only dates that are occasionally offered in bag quantities (100 rolls) are the 1963 and 1964 issues. And these are few and far between. In fact I only have knowledge of three or four other issues that entered the marketplace during the past two years in bag quantity. And in each instance they only consisted of 100 to 150 rolls of each.

The above offers an idea of relative rarity between the five groups. However, what must be remembered is that other than the 1963 and 1964 coins, none of these rolls are available in quantity. If one were to actively bid for 100 nice BU rolls of even the most common Washington Quarters from 1955-D through 1962-PD, he would be greatly surprised by the difficulty that he would face. I believe that in order to fill such an order you would have to increase the bid levels of these dates by at least 30%-50% to achieve success. And, unless you are fortunate, it would likely take six months or longer to complete the task.

Other issues in this category, such as the 1956-D, 1957-P, 1961-P and 1962-P would require substantially greater price increases to attract sufficient sellers to fill a 100 roll order. In fact I wouldn't be surprised if acquiring a bag quantity, of original rolls of any of these four dates, would necessitate a 50% to 75% price increase before the last rolls were obtained. For the pre-1955-D rolls a "hoard" consists of ten or, in the case of the rarer rolls, one or two rolls.

A SURPRISE IS IN STORE FOR MANY OLD TIMERS

I have had lengthy conversations with most of the major dealers who over the years have dealt in substantial amounts of BU rolls of Washington Quarters. Most of these experts recollect as I do when large quantities of these rolls, and even bags, were readily available. What they do not realize is the fact that most of the rolls that they handled no longer exist. I too felt as they did until my aggressive purchasing campaign yielded far fewer rolls than I had anticipated. These rolls either met their fate in the melting pot or, have long since been broken up and, were sold as single coins.

I believe that the availability of nice original rolls of Washington Quarters are one day destined to enter the ranks of the Buffalo Nickel, the Mercury Dime and the Walking Liberty Half Dollar. It will take a few years. But, I believe that this will be hastened by the incredible demand that the Statehood Washington Quarter Program is destined to generate.

The mint's Commemorative Washington Quarter Program will continue for the next eight and one half years. Every ten weeks a new Commemorative coin will be issued. This will continually refresh the minds of the public of this now important series. As time progresses the number of those collecting the Statehood Quarters, that extend their collections to the earlier silver quarters, will likely astonish most of today's coin enthusiasts. This will only increase both the desirability and the prices of these until recently depressed coins.

# Now Accepting Consignments for Our Upcoming Auctions

## Pre-Long Beach Sale of United States Coinage

Beverly Hills, California  
February 18-20, 2001

## The ANA 2001 National Money Show™

Salt Lake City, Utah  
March 8-10, 2001

Consign to Superior Galleries today, and your collection will be included in our ever-popular February Pre-Long Beach sale along with the multi-million dollar, 1,500+ lot J.R. Frankenfield Collection, or the prestigious ANA 2001 National Money Show™ auction to be held next March.

From generous cash advances to competitive commission rates, we offer special programs to suit your special needs. Plus, as a consignor, you will receive international exposure for your collection through our extensive print and internet advertising campaign. We will also featured your collection in our illustrated auction catalogues, conveniently available in both print and on the internet well before each sale.

The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when graded. <del>When graded, they are all usually high grades.</del> |                                                                                                                                                                                                |                                                                                                                                                                                                  |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                   |                                                                                                                                                                             |  |  |  |  |
| 1986                  | 13.75 -    | 14.25    | 40.00 -  | 43.00 | 85.00     | 95.00  | 140.00 -  | 150.00 | 275.00 +  | 281.00 | ~ ~ ~         | ~ ~ ~    | MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.                                                                                                                                                                                        | MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins. | MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible. | MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal. | MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date. | Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides. |  |  |  |  |

## DOUBLE EAGLES

### Trading the Premiums

by Richard N. Nachbar

Back in the late 1960s, while I was just entering high school, the price of gold seemed to be "stuck" at \$35 per troy ounce. This was despite rapidly increasing gold demand from U.S. trading partners, particularly France. U.S. imports greatly exceeded exports and foreign dollar holders were cashing dollars in for U.S. gold as quickly as they received them. Various investment newsletters of that era recommended gold ownership, and - for U.S. citizens - that meant primarily old Saint-Gaudens and Liberty Head Double Eagles, as gold bullion ownership and possession had been restricted since 1933.

Not all that well known during the 1960s was the existence of the **London Gold Pool**. Formed in 1961 by the United States and seven European central banks, the London Gold Pool set out to keep the price of gold at \$35 an ounce by dumping gold on the free market when its price rose above that level and by buying it back if its price dropped below \$35. At its inception in 1961, the United States took up 50% of the volume required to maintain the official price. When France withdrew from the pool in June 1967, the U.S. had to cover 59% of the Gold Pool's operations.

Between November 1967 and March of 1968, the U.S. lost \$3.2 billion from its gold stocks. Other European central banks soon followed the French example and refused to offer up more of their gold. When on March 14, 1968, the Gold Pool lost 400 tons of gold to private buyers - in one day - President Johnson asked the Bank of England to close the Gold Pool operation.

With the turn of a new decade in 1970, gold was still officially "stuck" at \$35 per ounce, but Fort Knox had been drained during the previous decade of over 40% of its holdings - from \$17.8 billion in 1960 to well under \$11 billion in 1970. The January 2, 1970 *Coin Dealer Newsletter* quoted the Brilliant Uncirculated \$20 Saint-Gaudens Double Eagle at \$60.00 bid, \$61.50 asked. \$20 Liberties were 50 cents more at \$60.50 bid, \$62.00 asked. Bullion-starved U.S. investors in 1970 were willing to pay 75% over melt for BU \$20 Saints and Liberties.

On August 15, 1971, President Nixon officially closed the gold "window" to international dollar creditors. "Slammed" might be the more appropriate description. By January 7, 1972, the CDN bid price for BU \$20 Saints and Liberties had increased by 18% in just two years to \$71.00 bid, \$72.50 asked. The January 5, 1973 CDN listed even sharply higher prices. BU Saints were at \$101.00 and BU Liberties at \$96.50, offering those few early gold coin investors annual returns in 1972 of 42% and 35%, respectively. Hand selected Gem BU Saints were bid only \$5 higher at \$106.

During my first year of college, continued U.S. balance of trade deficits, lack of convertibility and suddenly fluctuating foreign exchange markets proved to be too potent a mixture, and

on February 12, 1973, world foreign exchange markets were ordered to be closed down. The page one *International Herald Tribune* headlining article that day cited the cause in its first paragraph "as government officials seek ways to halt in-flows of unwanted dollars." Gold surged through the \$100 per ounce level and the January 4, 1974 CDN posted BU Saint spreads of \$205.00 bid, \$210.00 asked, with BU Liberties just \$2 behind.

When U.S. citizens were again granted the privilege of gold ownership at the beginning of 1975, the bullion price had surged to near \$200 and BU Saints were \$278.00 bid, \$284.00 asked. Profit taking set in for a year and a half and bullion bottomed in late August 1976 at \$103.50 per ounce, but BU Saints stubbornly held to a premium of over 85% at \$187.00 bid, \$192.00 asked.

Most of us are familiar with the subsequent rally in gold to over \$800 per ounce in January 1980. The January 25, 1980 CDN posted spreads of \$940.00 bid, \$975.00 asked, which proved to be the high water mark for the century. But this is all hindsight. Can anything be learned from this experience to assist the year 2000 coin investor?

#### "Stuck" Below \$300?

In many respects, the gold market has started to "feel" like the one back in the late 1960s. There are great similarities on the international foreign exchange markets. The U.S. Dollar again reigns supreme, but the Europeans are becoming increasingly discontented with its resulting effects. U.S. imports vastly exceed U.S. exports by over \$1 billion each day, resulting in massive quantities of paper (and electronic) dollars accumulating abroad. The Euro has declined precipitously from its launch level of \$1.17 in January 1999 to under 85 U.S. cents today. Volatility in major global stock markets is on the increase and an uneasy malaise permeates many economic relationships. Long term planning is fraught with unprecedented risk.

For 20 long years now, gold investors have had to endure gold prices grinding inexorably lower, even in the face of record global physical demand during the past few years which has far outpaced annual mine production. To many serious students of this marketplace, the officially reported numbers just do not add up. This has led many to conclude the existence of a **Second London Gold Pool**, though far more covert than the first. While not rendering an opinion here on that subject, excellent

## the COIN DEALER newsletter MONTHLY SUPPLEMENT

COPYRIGHT 2000 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin

EDITOR Keith M. Zaner

PUBLISHER Shane Downing

CIRCULATION &amp; ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

commentary appears daily at these websites: [www.gata.org](http://www.gata.org) and [www.gold-eagle.com](http://www.gold-eagle.com).

On the other hand, the vast majority of the U.S. investing public believes that gold is dead. Their argument: it pays no interest, it has a lousy track record, and there is no inflation. If gold is truly dead, then it matters not whether the gold investor purchases 1-ounce gold bullion coins - like the American Eagle, Canadian Maple Leaf or South African Krugerrand - or instead opts for the older, numismatically premium priced \$20 Double Eagles. All will perform poorly.

However, should the 21-year low New York gold closing price of \$253.00 per ounce on August 25, 1999 prove to hold and then rally on to new highs - as several commentators now believe - then selection of the appropriate trading vehicle becomes incumbent upon the gold investor. Consider the theoretical example that follows.

Anxious to get into the gold market, which had just tripled from \$35 per ounce to over \$100, a January 1974 investor purchased 100 BU Saints from his dealer at almost double melt, or \$210 each. When bullion gold coins were legalized in 1975, he lost a lot of the premium value he originally paid for with the Saints, but he stuck with them anyways. In 1976, when bullion prices fell hard, his dealer talked him into trading his 100 Saints for 150 Krugerrands. The premium on the Saints was over 70%, so he ended up with a lot more gold.

In January 1980, gold reached \$850 per ounce. Since the premium on BU Saints was under 20%, his dealer recommended that he sell his Krugerrands and buy Saints again with the proceeds. He didn't get out at the \$850 top, but he did get \$750 for his Krugerrands, so this time he had enough to trade into 115 BU Saints.

In 1984, Saint premiums shot up to over 125% and stayed there for two years. Our investor switched to bullion coins in early 1984 as soon as the Saint premium was over 70%. Although the premiums went much higher after his trade, he was quite happy with the now 215 Maple Leafs his dealer picked up for him.

When the Saint premiums dipped under 20%, again in 1990, our investor was back visiting his dealer, this time picking up 180 BU Saints with his bullion coin sale proceeds. The 1999 Y2K demand spike gave him another trading opportunity, and finally in October 2000, he switched again - even though the Saint premium was not quite down to 20%. He now owns 230 BU Saints, though he started with only 100 pieces in 1974, and his initial investment has about quadrupled. You can't tell this man that gold has been dead!

Richard N. Nachbar

# Now Accepting Consignments for our February 2001 Pre-Long Beach and March 2001 ANA Auctions

## **PRE-LONG BEACH SALE OF U.S. COINAGE**

Beverly Hills, California • February 18-20, 2001

**Consignment Deadline: December 1, 2000**

## **THE ANA 2001 NATIONAL MONEY SHOW™**

Salt Lake City, Utah • March 8-10, 2001

**Consignment Deadline: December 22, 2000**

Consign your coin collection to Superior Galleries today, and your coins will be included in our ever-popular February Pre-Long Beach sale along with the 2,000+ lot multi-million dollar J.R. Frankenfield Collection, or you may choose to participate in our prestigious ANA 2001 National Money Show™ auction to be held in Salt Lake City next March.

From generous cash advances to competitive commission rates, we

offer special programs to suit your special needs. Plus, as a consignor, you will receive international exposure for your collection through our extensive print and internet advertising campaign. Your collection will also be featured in our illustrated auction catalogues, conveniently available in both print and on the internet well before each sale.

Discover the fabulous opportunities awaiting you. Contact a Superior representative today.

This 2,000+ lot multi-million dollar collection features a complete collection of Early Cents (1793-1814) by Sheldon variety. The J.R. Frankenfield Collection can only be compared to our sales of the Jack Robinson (1989), G. Lee Kuntz (1990), and Robinson S. Brown (1996) collections. Every numbered Sheldon variety is represented from S-1

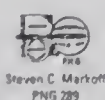

Chain Ameri to 1814 S-295. Rarities and condition census pieces abound, many pedigreed to some of the finest collectors and collections of the last half century, including Sheldon, Blaisdell, Naftzger, Brown, Robinson, Matthews, Morley, Kuntz, Vail, Dudgeon, Ruttenberg, and Rasmussen. Highlights from this exceptional collection are shown here.

The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades. |                                                                                                                                                                                                                                 |  |  |  |  |  |  |  |  |
| 1986                      | 13.75      | 14.50    | 37.00    | 40.00    | 72.00     | 78.00    | 135.00    | 139.00   | 265.00    | 272.00   | ~ ~ ~         | ~ ~ ~     | MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.                                                                                                                                                                           | MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.                                  |  |  |  |  |  |  |  |  |

### THE GOLD COINAGE OF THE SAN FRANCISCO MINT

#### PART ONE: GOLD DOLLARS, QUARTER EAGLES AND THREE DOLLAR GOLD PIECES

by Doug Winter

Gold coins were struck at the San Francisco Mint from 1854 through 1930. During this 76 year period, gold dollars, quarter eagles, three dollar gold pieces, half eagles, eagles, and double eagles were produced.

Traditionally, the popularity of San Francisco issues has trailed the other branch Mints. But with the discovery and recent sales of the *Brother Jonathan* and *S.S. Central America* shipwreck hoards, both of which contained large amounts of choice, high grade San Francisco coins, this Mint seems poised to gain many new collectors.

The following analysis will give a brief overview of the gold dollar, quarter eagles and three dollar gold produced at the San Francisco Mint. In future articles, the five dollar through twenty dollar issues will be studied.

#### GOLD DOLLARS

A total of seven gold dollar issues were produced at the San Francisco Mint. Surprisingly, these seven issues encompass all three major types of gold dollar. This is an easy set to assemble in any grade up to and including the higher range of About Uncirculated. All San Francisco gold dollars are quite scarce in Uncirculated.

**1854-S:** A popular coin due to its status as a first-year-of-issue and a one-year type. Generally seen very well struck and with good luster. Slightly scarce in circulated grades although not all that difficult to locate in the higher AU grades. Around 40-50 are known in Uncirculated with most in the Mint State-60 to Mint State-62 range. The best I've seen was the Pittman gem (later graded MS-65 by PCGS) that sold for \$33,000 in October 1997.

**1856-S:** This is the only Type Two issue from this Mint and the only Type Two dollar dated 1856 from any Mint. It is much more common than the Charlotte and Dahlonga Type Two issues but it is currently scarcer than the 1855-O. There are around 15-20 known in Uncirculated although the number might increase if any are found along with the other coins in the *S.S. Central America* holdings.

**1857-S:** Only 10,000 were struck and approximately 125-150 are currently known. This issue is usually seen well worn with Very Fine to Extremely Fine being typical. It is scarce in low-end AU, rare in the higher range of this grade and very rare in Uncirculated. Most are seen with somewhat soft strikes, poor luster and with Mint-made planchet problems. Examples may exist in the *S.S. Central America* treasure. The best I've seen was the PCGS MS-63 that brought \$16,100 in the October 1999 Bass II sale.

**1858-S:** Same mintage as the 1857-S and very similar in terms of its overall and high grade rarity. Unlike the 1857-S, this date's rarity in high grades is not jeopardized by the *S.S. Central America*. There are around 10-12 known in Uncirculated including one gem in a PCGS MS-65 holder. Usually seen well worn with poor luster and heavily marked and/or hairlined surfaces. Very undervalued in Uncirculated; a nice Mint State-61 to Mint State-62, when available, will cost \$5,000-7,000.

**1859-S:** Just a bit less rare than the 1857-S and 1858-S in terms of overall rarity but comparable in Uncirculated with around a dozen known. This date is generally a bit better struck and is found with better color and surfaces than the 1857-S and 1858-S. It is most often seen in Extremely Fine grades and it becomes rare in properly graded About Uncirculated-55. In Uncirculated, the 1859-S is much harder to locate than the heralded 1859-D. The best I've seen was a choice PCGS MS-63 in the 3/98 Bowers and Merena sale that brought \$14,300.

**1860-S:** The most available of the 1857-S to 1860-S date run but still a very tough issue in all grades with maybe 175-225 known. In Uncirculated, the 1860-S is more available than the 1857-S through 1859-S but it is still a scarce issue with around two dozen known. I recently sold the finest known,

a PCGS MS-64, to a Northern California collector. Generally seen with an acceptable strike but often on poor planchets and with little—if any—originality remaining.

**1870-S:** Only 3,000 were struck, making this the lowest mintage gold dollar from San Francisco. Less rare than its tiny mintage figure would suggest but still a very scarce coin in all grades. Usually seen in About Uncirculated-50 to Mint State-62 grades, suggesting that this issue saw little actual circulation. There are probably 25-30 known in Mint State including three or four gems. Usually well struck and semi-prooflike with rose or orange-gold color.

#### QUARTER EAGLES

A total of twenty three quarter eagles were produced at the San Francisco Mint between 1854 and 1879. This includes one of the great 19th century American gold rarities: the 1854-S. The rest of the dates range from very scarce to common and this set can easily be completed (excepting the 1854-S) in Extremely Fine to About Uncirculated grades for a very reasonable sum.

**1854-S:** Only 246 examples were struck and approximately a dozen are known today. Nearly all of these are very well worn and the finest known by a considerable margin is the PCGS AU-50 that brought \$135,700 in the October 1999 Bass II sale. This is one of the great American rarities yet it remains curiously overlooked and undervalued in comparison to other issues. Obviously, this is the stopper in any San Francisco quarter eagle set.

**1856-S:** The mintage figure for this issue is a more robust 72,120. There are currently 115-135 known but it is probable that some are included in the *S.S. Central America* treasure. There are currently fifteen to twenty known in Uncirculated including a gem PCGS MS-65 that realized \$23,000 in the Bass II sale.

**1857-S:** This is another currently scarce issue that is destined to become more available as coins from the *S.S. Central America* are brought into the numismatic market. In the June 2000 Sothbey's sale of *S.S. Central America* coins, there was a magnificent, virtually perfect 1857-S quarter eagle and one would have to think there are others waiting to be offered to eager collectors.

**1859-S:** After a one-year hiatus, coinage of San Francisco quarter eagles resumed. This is a very scarce issue in all grades with around 85-95 pieces known. It is usually in Fine to Very Fine grades and it becomes scarce in Extremely Fine and rare in About Uncirculated. Approximately five to seven are known in Uncirculated with the best of these a PCGS MS-64 that brought \$23,100 in the 1996 Bowers and Merena Rarities sale. In high grades, this is an extremely undervalued date.

**1860-S:** This is the most available of the early 1860's quarter eagles from San Francisco but it is still a scarce coin with around 125-135 known. Mostly seen in Very Fine to Extremely Fine and with soft strikes, poor luster and heavily abraded surfaces. A bit more available in Uncirculated than sometimes acknowledged with as many as 10-12 extant but still an extremely undervalued issue in any Mint State grade. A PCGS MS-63 brought \$8,625 in the Bass II sale and this was the finest 1860-S I can recall having seen.

**1861-S:** Similar in overall rarity to the 1860-S but much scarcer in high grades and an extremely rare date in Uncirculated with just three to five known; the finest of which is a NGC MS-62 that I sold to a Kansas collector in the Spring of 2000. Often seen with Mint-made planchet striations and weakness of strike on the eagle's right leg; very hard to find with original color and good luster.

**1862-S:** This date gets my vote as the rarest collectible San Francisco quarter eagle. There are approximately 70-80 known with most of these grading Extremely Fine-45 or lower. I know of two or three real Uncirculated examples and the finest of these was the PCGS MS-62 that brought \$21,275 in the October 1999 Bass II sale. Usually found well struck and in rich yellow gold but often cleaned and with impaired luster.

**1863-S:** The second rarest collectible San Francisco quarter eagle but more available in high grade than the 1862-S. A few are seen with weakness on the bun of the hair. Of the three to five that exist in Uncirculated there are two gems known: Eliasberg 10/82 and Mid American 5/92: 41 (now in a PCGS MS-64 holder).

**1865-S:** An extremely underrated date that is much scarcer than its original mintage figure of 23,376 would suggest. Around 90-100 are known with most grading EF-45 or lower. A rare coin in AU and a very rare one in Mint State with maybe six to eight known. The finest known is a PCGS MS-64 but the best I've seen in years is the PCGS MS-62 that brought \$6,900 in

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. **Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

the Bass II sale. Most have weak strikes, especially at the center of the reverse. At current price levels, one of the best values of any Liberty Head quarter eagle.

**1866-S:** One of the more common dates from the 1860's but still a major rarity in Uncirculated and almost never seen in the higher AU grades. Of the 200 or so known, most are very well worn, weakly struck and show inferior luster. The Bass II coin, graded MS-61 is the only Uncirculated piece to sell at auction in years; I sold the Eliasberg coin, graded MS-62, to an eastern collector in 1999. Another very undervalued date in higher grades.

**1867-S:** Most seen have a very weak strike at the central reverse. Around 165-175 are known with most grading Very Fine to Extremely Fine. Scarce in AU and very rare in Uncirculated with approximately 10 known. The Bass II coin, graded MS-63, was sold by me to a Kansas collector in 2000 and a PCGS MS-64 was included in the 2000 ANA sale.

**1868-S:** Comparable in terms of its overall and high grade rarity to the 1867-S. Most are Extremely Fine-40 to About Uncirculated-55 with decent luster but softness of strike. There are a pair of PCGS MS-64's known; the other known Mint State coins are in the 60 to 61 range. An extremely undervalued coin in high grades.

**1869-S:** The most common San Francisco quarter eagle from the 1860's and by far the most available in high grades. There are approximately 15-20 known in Uncirculated including at least one truly superb piece graded MS-66 by PCGS (which was included in the Bowers and Merena 2000 ANA sale). Usually seen with a somewhat sunken appearance on the obverse but with excellent luster.

**1870-S:** One of the more underrated San Francisco quarter eagles and a favorite "sleeper" issue of mine. Approximately 110-120 exist but this date becomes extremely scarce in the middle ranges of AU and it is very rare in Mint State with probably no more than ten known. Despite the true rarity of this coin, a very presentable MS-60 to MS-61 is valued at only \$3,500-4,500. The Bass II coin, graded MS-62 by PCGS, sold for a strong \$10,925.

**1871-S:** The relative availability of the 1871-S in Uncirculated suggests that a small hoard existed at one time. There are as many as two dozen examples known in Mint State including at least three to five gems. This is a well produced issue with very good luster and color; most show weakness on the eagle's right leg. The attractiveness and relative affordability of high grade specimens make this a good type coin for the collector seeking a single superior quality quarter eagle from this Mint.

**1872-S:** A touch scarcer overall than the 1871-S but far rarer in high grades. There are around 165-185 known with perhaps two dozen in About Uncirculated and another six to eight in Uncirculated. Not as well struck as the 1871-S but generally seen with pleasing rose and orange-gold color. This is another issue that is genuinely undervalued in high grades.

**1873-S:** One of the more available issues from this decade but not an easy coin to locate in choice, original AU-55 or better and genuinely rare in Uncirculated with approximately twelve to fifteen known. The best I've seen is a PCGS MS-64 that bounced around a number of auctions in 1993 and 1994 before it found a home in a private collection.

**1875-S:** Very similar to the 1873-S in terms of its overall and high grade rarity. There are approximately 200-225 known with most of these in the Extremely Fine-40 to About Uncirculated-55 range. This is a very underrated issue in Uncirculated with around twelve to fifteen known. The finest known is a PCGS MS-65 in a private collection. Often seen with weakness of strike at the centers and, especially, on the eagle's right leg.

**1876-S:** A more available coin than its tiny mintage figure of 5,000 would suggest. Often seen in the middle grades of About Uncirculated and with a similar appearance, suggesting a small hoard may have existed. Always seen with a raised Mint-made diagonal bar on the throat of Liberty. There are around twelve to fifteen known in Uncirculated and the best I have seen was the PCGS MS-63 Bass II coin that realized \$8,912 in October 1999.

**1877-S:** The second most common San Francisco quarter eagle and fairly similar in terms of overall and high grade rarity despite a considerably lower mintage of 35,400. Easily located in any circulated grade and not especially

rare in the lower Uncirculated grades but surprisingly scarce in Mint State-63 and very rare above this. I have only seen one or two gems.

**1878-S:** The most common San Francisco quarter eagle by a huge margin, as one might deduce from its comparably high mintage figure of 178,000. Common in all grades up to and including Mint State-61 but much harder to find in MS-62 and MS-63 than generally realized and actually a very rare coin in M6-64 and above.

**1879-S:** The last quarter eagle struck at this Mint and an issue that is considerably scarcer than generally regarded. In fact, many people still view the 1879-S as a common date but it is actually hard to locate in all grades and it is very rare in Mint State with around 12-15 known. Often seen semi-prooflike and with deep reddish-gold color. An exceptional value at current price levels.

## THREE DOLLAR GOLD PIECES

Three dollar gold pieces were produced at the San Francisco Mint from 1855 through 1857, in 1860, and again in 1870. The undisputed highlight of this quintet is the 1870-S which is unique and regarded as one of the great rarities of American numismatics. The other issues are all fairly scarce overall and they become quite rare in any grade approaching Mint State.

**1855-S:** Only 6,600 were struck and this is the rarest collectible Three Dollar gold piece from San Francisco. Approximately 115-125 are known with most in the Very Fine to Extremely Fine range. Quite rare in the lower AU grades, very rare in AU-55 or better and extremely rare in Uncirculated with just three to five known. The Pittman II coin, which was later graded MS-63 by NGC, sold for \$35,750 in May 1998 and it is the best business strike I've seen. There are a small number of Branch Mint Proofs known, unquestionably struck to commemorate the introduction of this issue to the San Francisco Mint.

**1856-S:** Far and away the most available San Francisco Three Dollar issue with as many as 350-400 known from the original mintage of 34,500. Easy to find in lower grades and only marginally scarce in nice About Uncirculated but very rare in full Mint State with perhaps a dozen known. The two best I've seen are the PCGS MS-64 that brought \$34,500 in the October 1999 Bass II sale and an NGC MS-64 that sold for \$35,650 in Heritage's 1998 FUN sale. Varieties exist with Small and Medium Mintmarks.

**1857-S:** Approximately 200-225 are known and this date is relatively common in lower grades. It becomes very scarce in properly graded AU-50, very rare in the higher AU grades and it is exceedingly rare in Uncirculated; more so, in fact, than either the 1855-S or 1856-S. The PCGS MS-63 in a private collection is the only truly Uncirculated piece I know of; maybe two or three others exist.

**1860-S:** 7,000 were struck and this underrated date is actually very close in terms of overall rarity of the better-known (and more expensive) 1855-S. It is almost never seen better than AU-55 and it is extremely hard to find pieces that have not been cleaned. The only unequivocally Uncirculated piece I've ever seen was the PCGS MS-62 in the Bass II sale that sold for \$19,550; awfully good value when one considers this date could well be unique in Uncirculated!

**1870-S:** This issue is one of the true enigmas of American numismatics. Like the similarly dated half dime, the 1870-S three dollar gold piece is unique. The only known example is well worn and actually has initials scratched into the obverse fields (!). Nonetheless, this did not stop Harry Bass from paying \$687,500 for this coin when it was sold as part of the Eliasberg collection in 1982. Today, it would probably bring \$2 to 3 million dollars at auction. The Harry Bass Foundation, who currently owns this coin, plans to loan it to the American Numismatic Association museum collection later this year and, by early 2001, it should be on view in Colorado Springs.

The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully than vintage; therefore, they are all usually high grade. |     |       |                                                                                                                                                                                                |         |       |                                                                                                                                                                                                  |       |       |                                                                                                                                                                                                                                 |  |  |                                                                                                                                                                                                                                   |  |  |                                                                                                                                                                             |  |  |

# The PCI Capsule...

- ✓ \$8<sup>00</sup> PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people  
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8<sup>00</sup> per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

**A**fter our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

## Julian M. Leidman

*Professional Numismatist & Consultant*

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the *formation of your collection*: with more than 30 years as a professional, I can locate the U.S. coins of currency you need. I can provide you with *confidential advice*, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your *personal representative* for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the *orderly disposition* of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can *appraise* your collection or individual pieces. You know your needs best; contact me for *expert* assistance.

# NEED TO MAIL?

Save Money  
On Postage!  
We will Pre-Sort your  
Mailing Labels to get  
You the Best Rate

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

## 2000 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both standard Zip Code order or Presorted for - Basic Bulk Rate mailings (you can save more than \$425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

# COUNTERFEIT COIN BULLETIN

An invaluable guide that warns of deceptive counterfeit and altered coins in the numismatic marketplace.

- Learn about dangerous fakes.
- Avoid costly mistakes.
- Ensure the integrity of your personal collection, museum cabinet or dealer inventory.

Loose-leaf, self-indexing  
bulletins (5 7/8" x 8 1/4")  
issued 3 times per year.

Each installment  
includes a minimum  
of 8 reports, plus an  
informative feature.

**\$60 per year**  
for ANA members;  
\$100 for non-members.  
Non-U.S. members &  
subscribers please add \$15.

a publication of the  
American Numismatic Association (ANA)  
and the International Association of  
Professional Numismatists (IAPN)

User-friendly, numismatic information  
delivered right to your door.

Subscription includes a handy, three-ring binder  
in which to organize your bulletins.
